Principal Features

The following should be read in conjunction with the full text of this Prospectus and is qualified in its entirety by and subject to the detailed information contained elsewhere in the Prospectus.

Company Structure

Ledbury SICAV p.l.c. is a collective investment scheme established as a multi-fund investment company with variable share capital (SICAV) with limited liability incorporated under the laws of Malta and licensed by the MFSA under the ISA. The Company qualifies as a self managed 'Maltese UCITS' in terms of the UCITS Regulations. The Company is expected to consist of several Sub-Funds, each of which will be capitalised through the issue of one or more Classes of Investor Shares. The capital raised for each Sub-Fund will be invested in line with its investment objectives, subject to its investment policies and restrictions.

Segregated Assets

The Company is structured with segregated liability between its Sub-Funds pursuant to Maltese law and accordingly, the assets of one Sub-Fund will not generally be available to meet the liabilities of another.

Under Maltese law, the creditors of that Sub-Fund whose liabilities exceed its assets shall have no claim or right of action against the assets of the other Sub-Funds and of the Company and the legal status of each Sub-Fund as having segregated assets and liabilities from each of the other Sub-Funds should be respected in any proceedings under the Companies Act related to either the dissolution and consequential winding-up of the Company or its reconstruction. Furthermore such proceedings instituted under the Companies Act should apply in the same way to each Sub-Fund as though it were a distinct legal entity and with such modifications as are necessary in view of the fact that a Sub-Fund is not a company. Any such proceedings in relation to any one Sub-Fund should not have any effect on the assets of any other Sub-Fund or of the Company.

The Directors will hold or cause to be held such separate accounts, records, statements and other documents as may be necessary to evidence the liabilities and assets of each Sub-Fund as distinct and separate from the assets and liabilities of all the other Sub-Funds. If classes of Investor Shares are issued in the same Sub-Fund, all assets and liabilities of each such class of Investor Shares would form part of the total assets and liabilities of the Sub-Fund of which such a class of Investor Shares forms part.

Notwithstanding the foregoing, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation and in such circumstances the assets of one Sub-Fund may be exposed to the liabilities of another. There is no guarantee that the courts of any jurisdiction outside Malta will respect the limitations on liability associated with segregated account companies.

Offer Documents

The Offer of Investor Shares in any Sub-Fund of the Company is governed by this Prospectus as the same may be amended and updated from time to time.

This Prospectus is accompanied by an Offering Supplement issued in connection with the offer of Investor Shares in the Sub-Funds listed in Appendix 1 (referred to as the "**Present Sub-Fund(s)**"). The Company has also issued one or more KIIDs in respect of the Present Sub-Fund(s).

When Investor Shares in other Sub-Funds are issued in the future, this Prospectus will be accompanied by an Offering Supplement for each new Sub-Fund. The Company will also issue one or more KIIDs in respect of new Sub-Funds.

New Classes

The Company may issue new Classes of Investor Shares which may be constituted as segregated Sub-Funds or new Classes of Investor Shares within existing Sub-Funds, which may be designated in various currencies. The assets of the said Sub-Funds may be managed utilising different strategies or methodologies, or by investing in different markets.

This Prospectus is to be at all times accompanied by an Offering Supplement for the relevant Sub-Fund which is the subject of the Offering. Offerings in other Sub-Funds may be made again in the future. Information about Sub-Funds other than the ones referred to herein may be obtained from the Administrator.

Investment Objective, Policies and Restrictions

Details of the specific investment objective and policies for each Sub-Fund will be formulated by the Directors at the time of creation of the Sub-Fund and will be stated in the related Offering Supplement.

There is no guarantee that any of the investment objectives will be met.

Investment Risks

Shareholders should be aware that the Sub-Funds in the Company are designed to achieve particular economic targets related to the strategies stated for the particular Sub-Fund and implemented by that Sub-Fund.

Such strategies may carry with them particular risks that are not typical of equity or bond funds. Subscribers are urged to review carefully the risk factors stated for the Sub-Funds in the relevant part of this Prospectus and any specific risk factors relative to any particular Sub-Fund which may be stated in the Offering Supplement for such Sub-Fund.

Management of the Company

Since the Company operates as a self-managed Maltese UCITS in terms of the MFSA Rules, the management of its business and activities will be carried out internally by the Company. The Company has however delegated various functions, including custody, administration, transfer agency and registrar services, and some aspects of the investment and risk management processes. The Board has in this regard engaged the Depositary, the Administrator, the Investment Manager(s) and the Risk Manager.

The Investment Committee

The Board of Directors retains overall responsibility for the implementation of the investment objective of the Company in respect of each Sub-Fund, directing the investment management of its assets, and in the management and monitoring of risk. In this regard, the Board will establish and receive support from the Investment Committee.

The Investment Committee shall meet at least quarterly and in any case as frequent or as necessary with the majority of meetings physically held in Malta.

Under its terms of reference, the Investment Committee shall be responsible for the following matters:

- (d) to make recommendations to the Board of Directors of the Company; and
- (e) to monitor and review the activities of the Investment Manager(s).

The Investment Committee shall report to the Board of Directors on the activities and the performance of the Company and the Sub-Funds.

The Investment Manager

For the purpose of a more efficient conduct of its business, the Company has appointed one or more persons

as Investment Manager in relation to its Sub-Funds. Details of the Investment Manager(s) appointed in relation to particular Sub-Fund will be set out in the related Offering Supplement.

The Investment Manager is responsible for the day to day investment management of the assets of the Sub-Fund for which it has been appointed in accordance with the investment objectives, strategies and restrictions set out in the applicable Offering Supplement and the rules and guidelines issued by the Investment Committee from time to time.

The Risk Manager

For the purpose of a more efficient conduct of its business, the Company has appointed Ms. Jennifer Vella as its Risk Manager.

The Risk Manager is responsible in ensuring that adequate and effective arrangements, processes and techniques in order to measure and manage at any time the risks the Sub-Funds might be exposed to and to ensure compliance with limits concerning global exposure and counterparty risk in accordance with the provisions of the Maltese UCITS rules.

The Risk Manager shall periodically report to and be subject to the monitoring and oversight of the Board of Directors or any Director nominated for that purpose.

Dividend Policy

Except where otherwise stated in the Offering Supplement of any particular Sub-Fund, it is not envisaged that any income or gains will be distributed by the Company to its Shareholders, and the Company will accumulate all income received from its investments, which income will be reflected in the NAV of the Investor Shares.

Under the Memorandum and Articles, and where provided for under the relevant Offering Supplement, the Directors may declare dividends out of a Sub-Fund from the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses provided that the amount of dividends so declared should be determined in conformity with any requirements imposed by the MFSA in terms of the ISA, MFSA Rules and the Licence Conditions.

Where applicable, the Company will be obliged and entitled to deduct an amount in respect of Malta tax from any dividend payable to a Shareholder in any Sub-Fund who is or is deemed to be taxable in Malta, and to pay such sum to the Malta tax authorities – Please refer to the Section entitled “Taxation” below for further details.

Shareholders should note that the NAV per Share of certain classes of Investor Shares in a Sub-Fund may decrease over time as the Company declares and pays dividends to the holders of such Investor Shares.

The Offering

Subject only to the maximum number of Investor Shares specified in the Memorandum and Articles which are at the relevant time available for issue, not being exceeded, the Company may, at its sole discretion, accept Subscription Applications for Investor Shares at any time.

Investor Shares will be offered by means of Offering Supplements at the relevant Initial Offering Price during the Initial Offering Period, and thereafter, on each Subscription Day at the Subscription Price.

Subscription monies and a fully completed Subscription Application and any accompanying documents have to reach the Company at the office of the Administrator no later than the time provided for in the Offering Supplement for the related Sub-Fund. The Company is entitled to close the Offering for Investor Shares in a Sub-Fund, or any class of shares of a Sub-Fund at its sole discretion.

See the related Offering Supplement for details.

Minimum Holding in Sub-Funds

The Offering Supplement of each Sub-Fund will give details of the minimum number or value of Investor Shares that shall be held in each Sub-Fund. The Directors may waive the minimum holding at their discretion.

The Minimum Holding requirement applies at all times to all Shareholders, however no obligations shall arise upon a Shareholder should the NAV of a holding reduce to less than the Minimum Holding as a result of fluctuation of the underlying assets.

Transferable Securities and Money Market Instruments

- B1. A Sub-Fund may not invest more than 10% of its assets in Transferable Securities and Money Market Instruments other than those referred to in paragraphs A1, A2 and A7.
- B2. A Sub-Fund may invest no more than 5% of its assets in Transferable Securities or Money Market

Instruments issued by the same body.

- B3. The limit referred in paragraph B2 above may be increased to 10% provided that the total value of Transferable Securities and Money Market Instruments held in bodies in which the Sub-Fund invests more than 5%, is less than 40%.
- B4. The limit of 5% (in B2) may be raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. Sums deriving from the issue of these bonds shall be invested, in conformity with the law, in assets which during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. If a Sub-Fund invests more than 5% of its assets in these bonds issued by one issuer, the total value of those investments in each of which it holds more than 5% of its assets may not exceed 80% of the value of the assets of the Sub-Fund.
- B5. The limit of 5% (in B2) may be raised to 35% if the Transferable Securities or Money Market Instruments are issued or guaranteed by:
- (A) a Member State or its local authorities;
 - (B) by a non-Member State;
 - (C) public international body of which one or more Member States are members.
- B6. The Transferable Securities and Money Market Instruments referred to in B4 and B5 shall not be taken into account for the purpose of applying the limit of 40% referred to in B3.

- B7. A Sub-Fund may not invest more than 20% of its assets in Deposits made with the same Approved Institution.

Transactions in FDIs

- B8. The Company may, in respect of a Sub-Fund, enter into FDIs falling under A6 above for investment or for efficient portfolio management.

The risk exposure of a Sub-Fund to an Approved Counterparty in an OTC FDI may not exceed 5% of its assets. This limit is raised to 10% where the counterparty is an Approved Institution. The exposure per counterparty of an OTC FDI shall be measured on the basis of the maximum potential loss incurred by the Sub-Fund if the counterparty defaults.

The exposure to one counterparty in an OTC FDI may be reduced where the counterparty provides the Sub Fund with Approved Collateral. Furthermore, the Company may, in respect of a Sub-Fund, net the mark-to-market value of its OTC FDI positions with the same counterparty, thus reducing the Company's exposure to its counterparty, provided that the Company has in respect of that Sub-Fund a contractual netting agreement with its counterparty which creates a single legal obligation such that, in the event of the counterparty's failure to perform owing to default, bankruptcy, liquidation or any other similar circumstance, the Company would have a claim to receive or an obligation to pay only the net sum of the positive and negative mark-to-market values of included individual FDIs.

FDIs which are transacted on an Approved Regulated Market where the clearinghouse meets the following conditions shall be deemed to be free of counterparty risk:

- (A) investments in Transferable Securities or Money Market Instruments issued by;
- (B) deposits made with;
- (C) counterparty risk exposures arising from OTC FDIs undertaken with; and
- (D) other exposures arising from OTC FDIs relating to;

a single body in excess of 20% of its assets.

B10. The limits referred to in B2, B3, B4, B5, B7, B8 and B9 above may not be combined, so that exposure to a single body shall not exceed 35% of the assets of a Sub-Fund.

B11. Group Companies are regarded as a single issuer for the purposes of B2, B3, B4, B5, B7, B8, B9 and B10. However, a limit of 20% of the assets of a Sub-Fund may be applied to investment in Transferable Securities and Money Market Instruments within the same group.

B12. Notwithstanding the limits stated above, a Sub-Fund may, applying the principle of risk spreading, invest up to 100% of its assets in different Transferable Securities and Money Market Instruments issued or guaranteed by:

- (A) any Member State or its local authorities;
- (B) non-Member States; or
- (C) public international bodies of which one or more Member States are members,

provided that:

- (A) the Company is satisfied that Shareholders have protection equivalent to that of shareholders in a CIS complying with the other limits laid down in this Prospectus;
- (B) the Company holds, in respect of a Sub-Fund, securities from at least six different issues; and
- (C) the securities from any one issue shall not exceed 30% of the assets of the Sub-Fund.

Where a Sub-Fund proposes to invest in Transferable Securities and/ or Money Market Instruments within the limits set in this paragraph, the Offering Supplement in respect of this Sub-Fund shall:

- (A) state the names of the States, local authorities or public international bodies issuing or guaranteeing securities in which it intends to invest more than 35% of its assets; and

Investment in Collective Investment Schemes (CIS)

B13. A Sub-Fund may not invest more than 20% of its assets in any one CIS referred to in paragraphs A3 and A4 above.

When a Sub-Fund has acquired CISs referred to in this paragraph B13, the assets of these CISs do not have to be combined for the purposes of the limits laid down in paragraphs B2 to B11.

B14. Investment in CISs referred to in paragraph A4 shall not, in aggregate, exceed 30% of the assets of

a Sub-Fund.

- B15. When a Sub-Fund invests in the units of other CISs that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, such entities may not charge subscription, conversion or redemption fees on account of the Sub-Fund's investment in the shares of such other CISs.
- B16. Where a commission (including a rebated commission) is received by the Investment Manager or an Investment Advisor by virtue of an investment in the shares of another CIS, this commission must be paid into the property of the Sub-Fund.

Where a Sub-Fund invests a substantial proportion of its assets in other CISs, the Offering Supplement relating to that Sub-Fund shall disclose the maximum level of the management fees that may be charged both to the Sub-Fund and to the other CISs in which it intends to invest.

Investments to Track an Index

- B17. Notwithstanding the limits stated in paragraphs B2 and B3 above and without prejudice to the limits laid down in B19, B20 and B21, a Sub-Fund may invest up to 20% of its assets in shares and/or debt securities issued by the same body where the investment policy of a Sub-Fund is to replicate an index. When the investment objective of a Sub-Fund is to replicate an index this will be stated in the related Offering Supplement.

The Index is subject to MFSA approval and will be recognised by the MFSA on the basis of the criteria set out below:

- (A) its composition is sufficiently diversified;
 - (B) the index represents an adequate benchmark for the market to which it refers; and
 - (C) it is published in an appropriate manner.
- B18. The limit in paragraph B17 above may be raised to 35%, where, in the opinion of the Investment Manager and subject to the prior approval of the MFSA, this is justified by exceptional market conditions. The investment up to this limit is only permitted for a single issuer.

General Provisions

- B19. The Company, or the Investment Manager acting in connection with all of the CISs it manages, may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
- B20. A Sub-Fund may acquire no more than:
- (A) 10% of the non-voting shares of any single issuing body;
 - (B) 10% of the debt securities of any single issuing body;

This waiver is applicable only if in its investment policies, the company from the non-Member State complies with the limits laid down in B2 to B10, B13 to B16, B19 and B20 and provided that where these limits are exceeded paragraphs B22 and B23 below are observed;
 - (E) Shares held by a Sub-Fund in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of shares at shareholders' request exclusively on their behalf.

The Company shall use the Commitment Approach or a Value at Risk ("VaR") model in order to measure the global exposure and leverage of any Sub-Fund arising out of its FDI positions as set out in the Offering Supplement relating to a Sub-Fund.

Breaches of Investment Restrictions

If the limits laid down above are exceeded for reasons beyond the control of the Investment Manager or the Company, or as a result of subscription rights, the Investment Manager or the Company shall take such steps as are necessary to ensure a restoration of compliance, in respect of that Sub-Fund, with such restriction(s) as soon as possible, taking due account of the interests of its Shareholders, but in any event (unless otherwise authorised by the MFSA), within a period of six (6) months from the date when such excess was discovered.

The Administrator

By means of an agreement dated 23rd September 2016 (as updated, amended and/or restated from time to time) (the "**Administration Agreement**") between the Company and Sanne Fund Administration (Malta) Limited, the latter has been appointed as the Administrator of the Company.

The Administrator was incorporated in Malta on the 30 April, 2008 with registration number C 44137, in order to provide services as an administrator, registrar and transfer agent to investment companies and other collective investment schemes. The Administrator is recognised by the MFSA in terms of the ISA as an administrator of collective investment schemes. The Administrator forms part of the Apex Group.

The Administrator is responsible under the overall supervision of the Board of Directors for, inter alia, the general administration of the Company, which includes keeping the register of Shareholders, the proper book-keeping of the Company and its Sub-Funds, arranging for the issue and redemption of Shares, and calculating the Net Asset Value.

In calculating the Net Asset Value, the Administrator may rely upon such automatic pricing services as it will determine and will (in the absence of fraud, negligence or wilful default on the part of the Administrator or an associate) not be liable for any loss suffered by the Company or any Shareholder by reason of any error thereto resulting from any inaccuracy in the information provided. The Administrator will use reasonable endeavours to verify pricing information supplied by the Company or any connected person thereof (including a connected person who is a broker, market maker or other intermediary). However, in certain circumstances it may not be possible or practicable for the Administrator to verify such information and, in such circumstances, the Administrator will not be liable for any loss suffered by the Company or any Shareholder or any other person by reason of any error in calculation resulting from any inaccuracy in the information provided. Also in circumstances where the Administrator uses particular pricing services, brokers, market makers or other intermediaries it will not be liable for any loss suffered by the Company or any Shareholder by reason of any error in the calculation of the Net Asset Value resulting from any inaccuracy in the information provided. Further, where the investments of the Company include investments in CIS, the Administrator may rely on the price (including estimated prices) provided by the advisor, administrator or valuation agent of such CIS, and in such circumstances the Administrator will not be liable for any loss suffered by the Company or any Shareholder by reason of any error in the price provided.

The Administrator is a service provider to the Company and has no responsibility or authority to make investment decisions, or render investment advice, with respect to the assets of the Company. The Administrator is not responsible for, and accepts no responsibility or liability for any losses suffered by the Company and/or the Investment Manager or any investors in the Company as a result of any failure by the Investment Manager to adhere to the investment objective, policy, investment restrictions, borrowing restrictions or operating guidelines.

The Administrator shall not be liable or otherwise responsible for any loss suffered by any person by reason of (i) any act or omission of any person prior to the commencement date of the Administration Agreement, (ii) any defect, error, inaccuracy, breakdown or delay in any product or service provided to the Administrator by any third party service provider, and (iii) any inaccuracy, error or delay in information provided to the Administrator by or for the Company.

Under the terms of the Administration Agreement, the Administrator is able to delegate certain of its functions and duties to the Administrator's affiliates.

The Administrator shall not otherwise be liable for any loss to the Company and/or the Investment Manager or any other person unless direct loss is sustained as a result of its negligence, breach of the Administration Agreement, dishonesty, fraud, wilful neglect, wilful misconduct or bad faith (the "**Administrator's Wrongful Acts**"). The Administrator is entitled to be indemnified by the Company against all liabilities, obligations, losses, damages, penalties, actions, judgements, suits, costs, expenses or disbursements of any kind or nature whatsoever (other than those resulting from the Administrator's Wrongful Acts) which may be imposed on, incurred by or asserted against the Administrator in performing its obligations or duties. The Administrator, in turn, has agreed to indemnify the Company against, and hold it harmless from, any losses due to or caused by the Administrator's Wrongful Acts.

The appointment of the Administrator may be terminated without cause by not less than three (3) months' notice in writing or forthwith in extraordinary cases such as material breach of obligations or liquidation of a party.

The Administrator is not responsible for the preparation or issue of this document other than with respect to the description above in respect of the Administrator.

The fees payable to the Administrator are set out in the Section entitled "**Fees, Charges and Expenses**" below and in the Administration Agreement.

Conflicts of Interest

As mentioned in the Section entitled “Risk Factors” below, potential investors should be aware that there may be situations in which each and any of the Directors, Officers, the Investment Manager, the Risk Manager, the Depositary, the Administrator and their respective delegates including investment advisors, equity analysts, risk managers and sub-custodians, where applicable (together the “**Interested Parties**”), could encounter a conflict of interest in connection with the Company. Should a conflict of interest actually arise, the Interested Parties will endeavour to ensure that it is resolved fairly. In particular, potential investors should be aware of the following:

- (1) Certain Directors or Officers of the Company or entities in which they may have a financial or managerial interest, may sell Investor Shares of the Company and receive a portion of each, or all, of the brokerage commissions, transaction charges, advisory fees or management fees paid by the Company as attributable to such Investor Shares. Thus, to the extent of such purchases, such Directors or Officers may have a conflict of interest between their duty to act for the benefit of the Shareholders in limiting expenses of the Company and the Sub-Fund and their interest in receiving such fees and/or commissions.
- (2) A Director or service provider may have a direct or indirect beneficial interest in the Founder Shares or in the allocations which may be payable from time to time to the holders of the Founder Shares. This may lead to a conflict of interest between the interest of such Director or service provider to generate returns for the holders of the Founder Shares, and their role towards the Company. Thus, to the extent of such interests, such Director or service provider may have a conflict of interest between their duty to act for the benefit of the Shareholders in limiting expenses of the Company and the Sub-Funds and their interest in receiving such fees, returns and allocations. Any such conflicts that might arise will be resolved, in so far as is practicable, in a manner which is fair to all interested parties.
- (3) An Investment Manager may make investments for other clients without making the same available to the Company and its Sub-Funds where, having regard to their obligations under the relevant management agreement, the Investment Manager considers that it is acting in the best interests of the Company, so far as reasonably practicable having regard to its obligations to other clients.
- (4) The Investment Manager, the Risk Manager, the Depositary and the Administrator may carry out such functions for other investment companies engaging in the same activities as the Company.
- (5) The Company may effect the sale or purchase of investments through a broker who is associated with the Investment Manager or the Depositary, provided that the amount of commission payable to such broker is not in excess of that which would have been payable had the sale or purchase been effected through a broker who is not so associated.
- (6) The Company may, to the extent permissible under the MFSA Rules, enter into derivative contracts or other transactions of a similar nature with companies or other entities forming part of the same group of companies as the Investment Manager and the Depositary or which are associated, directly or indirectly with the Investment Manager, the Depositary or with which any of the directors of the Company may be connected or employed. The Company may enter into such dealings provided that they are on an arm’s length basis and on terms no less favourable to the Company than could reasonably have been obtained had the dealing been effected with an independent third party. Should a conflict of interest arise, the Directors, the Investment Manager and the Depositary will endeavour to ensure that it is resolved fairly and that the Company is not disadvantaged.
- (7) Mr. Edward Collins, Director of the Company, holds a minority shareholding in Arlington Capital Limited, an Investment Manager to one or more Sub-Funds. All the Directors have fiduciary duties to the Company and consequently have exercised and will exercise good faith and integrity in handling all the Company’s affairs.

The Company maintains a policy (the "**ESG Policy**") which integrates sustainability risks and opportunities into its research, analysis and investment decision-making processes in respect of Environmental, Social and Governance issues ("**ESG**"), where applicable. The ESG Policy forms an integral part of its investment

process and seeks to mitigate ESG and sustainability risks by ensuring that the Company only invests in companies or assets that are operated in an environmentally responsible manner, with respect for human rights and labour rights and providing good, healthy and safe working conditions and promote good governance conduct, always to the extent applicable and appropriate. Where applicable, consideration of potential ESG and sustainability risks related to a company or asset is integrated in the Company's investment process, from transaction sourcing and selection to approvals and execution.

The consideration of sustainability risks and opportunities, when applied, may have a material impact on long-term returns for Shareholders. Please refer to the section entitled 'Risk Factors' in this respect.

Potential risks are further identified in the due diligence process, by means of screening for ESG controversies or further ESG analysis as warranted in context of the specific investments and addressed for each investment on a case-by-case basis pursuant to the Company's risk management framework and ESG Policy.

In respect of the Company and its Sub-Funds, with the exception of the Hanson Sustainable Income Fund, the Company does not deem sustainability risks to be relevant to the Company and consequently does not make investments decisions in respect of the Company based on sustainability risks and does not consider the adverse impacts of sustainability factors on the returns it offers to its Shareholders as this does not fit in with any of the current investment strategies of the sub-funds of the Company.

Please refer to the Offering Supplement and Addendum 2 of the Hanson Sustainable Income Fund for further details relating to the manner in which the Company takes into consideration sustainability risk into the investment decision making process of this particular sub-fund.

The classification of the Sub-Funds as Article 6 Funds, with the exception of the Hanson Sustainable Income Fund, means that the Sub-Funds do not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR or have sustainable investment as their objective in a way that meet the specific criteria contained in Article 9 of SFDR.

Consequently, each Sub-Fund that is classified as an Article 6 Fund shall not be expected to pursue an investment approach that explicitly promotes environmental or social characteristics or to have sustainable investment as its objective. Accordingly, the investments underlying the Sub-Funds, with the exception of the Hanson Sustainable Income Fund, do not take into account the EU criteria for environmentally sustainable economic activities.

Risk Factors

The discussion below is of general nature and is intended to describe various risk factors which may be associated with an investment in the Investor Shares in a Sub-Fund to which the attention of investors is drawn. Investors should also see the section of the relevant Offering Supplement entitled "Risk Factors" for any additional risks particular to the Investor Shares in that Sub-Fund.

The risk factors discussed herein and in the relevant Offering Supplement are not intended to be an exhaustive list and there may be other considerations that should be taken into account in relation to an investment. Investors should consult their own advisors before considering an investment in the Investor Shares in a particular Sub-Fund. The factors of relevance to the Investor Shares in a particular Sub-Fund will depend upon a number of interrelated matters including, but not limited to, the nature of the Investor Shares. No investment should be made in the Investor Shares in a particular Sub-Fund until careful consideration of all those factors has been made.

General

The assets and liabilities of the Company and its Sub-Funds are as a general rule subject to normal market fluctuations and other risks inherent in owning such assets and assuming such liabilities. The value of investments and the income therefrom, and therefore the value of and income from Investor Shares relating to each Sub-Fund can go down as well as up and an investor may not get back the amount he invests. Due to the charges which may be payable on the acquisition or disposal or redemption or exchange of shares, an investment in Investor Shares in a particular Sub-Fund should be viewed as medium to long term. An investment in a Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Risk factors may occur simultaneously and/or may compound each other resulting in an unpredictable effect on the value of the Investor Shares. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Investor Shares.

Any loss incurred by the Company or a Sub-Fund due to the late or non-payment of subscription proceeds in respect of subscription applications received shall be borne by the relevant Subscriber or if not possible or practical to recover such losses from the Subscriber, by the relevant Sub-Fund.

Management Risk

Any Sub-Fund is open to the risk of unprofitable outcomes that is losses incurred or profits foregone as a result of what turn out to be poor decisions or to take or not to take certain actions at the right time. At any time certain policies, strategies, investment techniques and risk analysis may be employed for a Sub-Fund in order to seek to achieve its investment objective; however, there can never be any guarantee that the desired results will be obtained.

Insufficient Risk Recognition

An investment in the Investor Shares in a particular Sub-Fund involves risks. These risks may include or relate to, among others, equity market, bond market, foreign exchange, interest rate, credit, market volatility and political risks and any combination of these and other risks. Some of these risk factors are briefly discussed below.

Investors should understand the risks associated with an investment in the Investor Shares in a particular Sub-Fund and should only reach an investment decision after careful consideration with their legal, tax, accounting, financial and other advisors of (i) the suitability of an investment in the Shares in the light of their own particular financial, fiscal and other circumstances, (ii) the information set out in this Prospectus, (iii) the risks associated with the use by the Sub-Fund of derivative techniques (if applicable), (iv) the nature of the Sub-Fund's assets, and (v) information set out in the relevant Offering Supplement.

Investors in the Investor Shares in a particular Sub-Fund should recognise that the Investor Shares may decline in value and should be prepared to sustain a substantial loss of their investment in the Investor Shares.

Segregation of Liability

The provisions of the Companies Act provide for segregated liability between Sub-Funds and as such, under

Maltese law, the assets of one Sub-Fund will not be available to satisfy the liabilities of another Sub-Fund. However, it should be noted that the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. It is the Company's policy to obtain from any person or entity dealing with the Company, an express acknowledgement that he/it will have no recourse or right against the Company and any Sub-Funds except to the extent of the assets of any particular Sub-Fund and, in that case, only in respect of his/its dealings with that particular Sub-Fund. Nonetheless, there can be no guarantee that the courts of any jurisdiction outside Malta will respect the limitations on liability as set out above.

Counterparty Risk

Currency forward contracts, swaps and other forms of FDIs are not guaranteed by an exchange or its clearing house. Consequently, there are no requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. The business failure of a counterparty with which the Company has entered into "a trade" will most likely result in a default. The default of a party with which the Company has entered into "a trade" will force the Company to cover its resale or repurchase commitments, if any, at the then current market price. The Company is also exposed to the risk of failure by a counterparty to perform its obligations under an OTC FDI contract. Transactions in over-the-counter markets are not subject to the same regulatory oversight as exchange-based markets. Further to a derogation granted by the MFSA, the Company may also enter into transactions with Approved Counterparties which are not subject to independent verification of credit worthiness by a credit rating agency; such unrated Approved Counterparties however remain subject to the conditions set out in the definition of Approved Counterparties in the "Interpretation" Section above and subject to the due diligence carried out in this respect by the Investment Manager.

Credit Risk

Investors in the Investor Shares in a particular Sub-Fund should be aware that such an investment might involve credit risk. Bonds or other debt securities held for a Sub-Fund involve credit risk represented by the possibility of default by the issuer. This risk may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero). This may in turn affect the NAV per Share. Stock lending of securities held for a Sub-Fund also involves credit risk, being the risk that the securities lent are not recovered and/or that recovery is delayed.

Credit Ratings

The management of any Sub-Fund may involve substantial reliance on credit ratings. Credit ratings are assigned by rating agencies such as Standard & Poor's or Moody's. It is important to understand the nature of credit ratings in order to understand the nature of securities. The level of a credit rating is an indication of the probability that (in the opinion of the rating agency) payments will be made on the relevant bond(s) or other obligation(s) to which the credit rating relates. Bonds with a rating of AAA, AA, A or BBB by S&P are generally called "investment grade" bonds, with AAA representing the credit rating of the highest quality. While credit ratings can be a useful tool for financial analysis, they are not a guarantee of quality or a guarantee of future performance in relation to the relevant obligations. Ratings assigned to securities by rating agencies may not fully reflect the true risks of an investment. Ratings may also be withdrawn or revised at any time.

Exchange Rates

Investors in the Investor Shares in a particular Sub-Fund should be aware that their investment might involve exchange rate risks. For example, the Investor Shares may be denominated in a currency other than the investor's reference currency, which could be the currency of the investor's home jurisdiction and/or the currency in which an investor wishes to receive his monies or in which he prefers to maintain his capital or otherwise that currency to which the investor prefers or requires to be exposed to primarily.

Exchange rate risks may also arise indirectly when the base currency of the investor is the same as that of the Investor Shares, especially if the underlying assets attributed to the Sub-Fund are denominated in other currencies. The Company may attempt to reduce this risk through hedging arrangements details of which would (if employed) be stated in the relevant Offering Supplement.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are influenced by macro economic factors (such as the economic development in the different currency areas, interest rates and international capital movements), speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Investor Shares.

Hedging Transactions

The Company may employ various techniques in respect of the Sub-Funds to attempt to reduce a portion of the risks inherent in their respective investment strategies. The ability to achieve the desired effect through a particular technique is dependent upon many factors, including the liquidity of the market at the desired time of execution. Thus substantial risk remains so that such techniques cannot always be implemented or effective in reducing losses. Hedging transactions, including the use of FDIs, which may be used by the Company have risks associated with them, including possible default by the other party to the transaction, illiquidity, a lack of regulation in certain over-the-counter markets and, to the extent that the view of the management of the Company as to certain market movements is incorrect, the risk that the use of hedging transactions could result in losses greater than if they had not been used. Use of put and call options may result in losses. The use of currency transactions can result in losses being incurred as a result of a number of factors including the imposition of exchange controls, suspension of settlements, or the inability to deliver or receive specified currency.

The use of options and futures transactions entails certain other risks. In particular the variable degree of correlation between price movements of futures contracts and price movements in the related portfolio position of the Company creates the possibility that losses on the hedging instrument may be greater than gains in the value of that position. In addition, futures and options markets may not be liquid in all circumstances. As a result, in certain markets, the Company might not be able to close out a transaction without incurring substantial losses, if at all. Although the use of futures contracts and options transactions for hedging should tend to minimise the risk of loss due to a decline in the value of the hedged position, at the same time they tend to limit any potential gain which might result from an increase in value of such position. Finally, the daily variation margin requirements for futures contracts could create a greater ongoing potential financial risk than could purchases of options, where the exposure is limited to the cost of the initial premium. Losses resulting from the use of hedging transactions could reduce NAV, and possibly income and such losses can be greater than if the hedging transactions had not been utilised.

Interest Rates

Investors in the Investor Shares in a particular Sub-Fund should be aware that an investment in the Investor Shares might involve interest rate risk in that there may be fluctuations in the currency of denomination of the Sub-Fund's assets and/or the Investor Shares in that Sub-Fund.

Interest rates are determined by factors of supply and demand in the international money markets, which are influenced by macro economic factors, speculation and central bank and government intervention. Fluctuations in short term and/or long-term interest rates may affect the value of the Investor Shares in a particular Sub-Fund. Fluctuations in interest rates of the currency in which the Investor Shares in a particular Sub-Fund are denominated and/or fluctuations in interest rates of the currency or currencies in which the Sub-Fund's assets are denominated may affect the value of the Investor Shares in that Sub-Fund.

Depositary Risk

The Investment Manager may decide from time to time to invest in a country where the Depositary has no correspondent. In such a case, the Depositary will have to identify and appoint after due diligence a local custodian. This process may take time and deprive in the meantime the Investment Manager of investment opportunities.

In the same manner, the Depositary shall assess on an ongoing basis the custody risk of the country where the Company's assets are safe-kept. The Depositary may identify from time to time a custody risk in a jurisdiction and recommend to the Investment Manager to realise the investments immediately. In doing so, the price at which such assets will be sold may be lower than the price the Company would have received in normal circumstances, potentially affecting the performance of the relevant Sub-Funds.

Loss or Insolvency at Clearing Firm or a Sub-Custodian

If a clearing firm utilised by or on behalf of the Company (including by or on behalf of a sub-investment manager) were to become insolvent, the Company could have some or all of the positions on accounts maintained with that firm closed out without its consent.

Even if all such positions are not closed out under these circumstances, delays or other difficulties may be experienced in attempting to close out or exercise options positions. Widespread insolvency among clearing firms that clear securities options could also impair the ability of the entity, where applicable, responsible for overseeing and/or ensuring settlement of trades in such securities options to honour all exercised options, in spite of the system of safeguards which it may have in place. Such widespread insolvency could result in substantial losses to the Company and its Sub-Funds.

The Depositary's liability for loss or prejudice arising from the insolvency, acts or omissions of sub-custodians and other delegates, and of clearing systems, settlement systems, dematerialised book entry systems, central securities depositories or similar systems used by the Depositary, may to the extent permitted under the UCITS Directive, be limited in terms of the relevant Depositary Agreement. Accordingly, in the event of any loss or prejudice arising from the insolvency, acts and omissions of such persons, the Company may have to enforce its rights against such persons directly. Furthermore, any delegation made by the Depositary pursuant to any Depositary Agreement poses credit or counterparty risk and operational and legal risk and may be susceptible to systemic risk. If any such risk materialises, assets of the Sub-Fund may be lost or become unavailable; for instance, if the Sub-Fund's assets are not segregated on the sub-custodian's books, the Sub-Fund's assets cannot be identified and reattributed to the Sub-Fund, or if the Sub-Custodian becomes insolvent, the Company or its investors may, subject to the remedies under the UCITS Directive, not be able to claim back their assets immediately.

Market Volatility

Market volatility reflects the degree of instability and expected instability of the performance of the Investor Shares and the Sub-Fund's assets. The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments, which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivatives markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macro economic factors and speculation.

Emerging Markets Risk

The Sub-Fund may invest in equity or fixed income securities of companies or Governments in emerging markets. Such securities may involve a high degree of risk and may be considered speculative. Risks include (i) greater risk of expropriation, confiscatory taxation, nationalisation, and social, political and economic instability; (ii) the small current size of the markets for securities of emerging markets issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility, (iii) certain national policies which may restrict the Sub-Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

Liquidity Risk

Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets held by a Sub-Fund and may therefore prevent the calculation of the NAV per Share and/or the raising of cash to meet redemptions of Investor Shares in the Sub-Fund concerned.

Tax and Legal Risks

The tax consequences to the Sub-Fund and investors in the Sub-Fund, the ability of the Sub-Fund as a foreign investor to invest in the markets and to repatriate its assets including any income and profit earned on those assets and other operations of the Sub-Fund are based on existing regulations and are subject to change through legislative, judicial or administrative action in the various jurisdictions in which the Company operates. There can be no guarantee that income tax legislation and laws or regulations governing the

Company's operations and investments will not be changed in a manner that may adversely affect the Company or its Sub-Funds.

Use of FDIs

While the prudent use of FDIs can be beneficial, FDIs also involve risks which are different from, and in certain cases, greater than, the risk presented by more traditional investments.

The Company may in respect of a Sub-Fund, from time to time utilise both exchange-traded and over-the-counter FDIs including, but not limited to futures, forwards, swaps, options and contracts for differences as part of its investment policy. These instruments can be highly volatile and expose investors to a high risk of loss. The low initial margin deposits normally required to establish a position in such instruments permit a high degree of leverage. As a result, depending on the type of instrument, a relatively small movement in the price of a contract may result in a profit or a loss which is high in proportion to the amount of funds actually placed as initial margin and may result in unquantifiable further loss exceeding any margin deposited. In addition, daily limits on price fluctuations and speculative position limits on exchanges may prevent prompt liquidation of positions resulting in potentially greater losses. Transactions in over the counter FDIs may involve additional risk as there is no exchange market on which to close out an open position.

OTC FDIs, in particular, are typically structured derivative transactions. Structured derivative transactions are complex and may involve a high degree of loss.

The Company and its Sub-Funds will only use FDIs (including OTC FDIs) for investment purposes and for purpose of efficient portfolio management and hedging.

European Market Infrastructure Regulation

On 16 August, 2012, the European Market Infrastructure Regulation ("**EMIR**") entered into force. EMIR introduces certain requirements in respect of derivative contracts, which will apply primarily to "financial counterparties" such as EU authorised investment firms, credit institutions, insurance companies, UCITS and alternative investment funds managed by EU authorised alternative investment fund managers, and "non-financial counterparties" which are entities established in the EU which are not financial counterparties. Broadly, EMIR's requirements in respect of derivative contracts are (i) mandatory clearing of OTC derivative contracts declared subject to the clearing obligation; (ii) risk mitigation techniques in respect of uncleared OTC derivative contracts; and (iii) reporting and record-keeping requirements in respect of all derivative contracts.

The implementation of EMIR is achieved largely through secondary measures which are being phased in over time. Certain of EMIR's requirements have applied since 15 March, 2013 and additional requirements are coming into force subsequently thereafter and/or are yet to be finalised. The EU regulatory framework relating to derivatives is set not only by EMIR but also by the "recast" Markets in Financial Instruments Directive ("**MiFID II**") and its implementing measures. In particular, MiFID II requires transactions in derivatives to be traded on a regulated market and cleared. It is difficult to predict the full impact of these regulatory developments on the Sub-Funds. Prospective investors should be aware that the regulatory changes arising from EMIR and MiFID II may in due course significantly raise the costs of entering into derivative contracts and may adversely affect a Sub-Fund's ability to engage in transactions in derivatives.

Common Reporting Standard Risks

The Organisation for Economic Co-operation and Development (OECD) has developed a new global standard for the automatic exchange of financial information between tax authorities (the "**Common Reporting Standard**"), which is similar to FATCA (see the Section entitled "Taxation" below). Malta is a signatory jurisdiction to the Common Reporting Standard and intends to conduct its first exchange of information with tax authorities of other signatory jurisdictions in late 2017. The detailed requirements for complying with the Common Reporting Standard are not yet known. The requirements, when finalised, may impose additional burdens and costs on the Company (or each Sub-Fund) and/or its Shareholders. Although the Company will attempt to satisfy any obligations imposed upon it by the Common Reporting Standards, no assurance can be given that it will be able to satisfy such obligations. Implementation of the Common Reporting Standard may require the Company (or each Sub-Fund) to conduct additional due diligence and report upon accounts held with it by Shareholders who are reportable persons in other participating jurisdictions. The Company (or each Sub-Fund) may require certain additional financial information from shareholders and financial intermediaries acting on behalf of shareholders to comply with its diligence and

reporting obligations under the Common Reporting Standard. If the Company (or each Sub-Fund) is unable to obtain the necessary information from Shareholders, it may take any steps necessary to avoid resulting sanctions, which may include (but are not limited to) compulsorily redeeming the relevant Shareholder.

European Benchmarks Regulation

The Benchmarks Regulation was published in the Official Journal of the European Union on 29 June 2016 and entered into force on 30 June 2016. It is directly applicable law across the European Union. The majority of its provisions applied from 1 January 2018. The Benchmarks Regulation applies principally to “administrators” and also, in some respects, to “contributors” and certain “users” of “benchmarks” which in certain circumstances can include investment funds such as the Company.

The Benchmarks Regulation will among other things: (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and make significant changes to the way in which benchmarks falling within scope of the Benchmarks Regulation are governed (including reforms of governance and control arrangements, obligations in relation to input data, certain transparency and record-keeping requirements and detailed codes of conduct for contributors); and (ii) prevent certain uses of “benchmarks” provided by unauthorised administrators by supervised entities in the EU. The scope of the Benchmarks Regulation is wide and, in addition to so-called “critical benchmark” indices, could also potentially apply to many interest rate and foreign exchange rate indices, equity indices and other indices (including “proprietary” indices or strategies) where used to determine the amount payable under or the value or performance of certain financial instruments traded on a trading venue, financial contracts and investment funds.

Potential effects of the Benchmarks Regulation include (among other things): an index which is a “benchmark” could not be used by a Sub-Fund in certain ways if such index’s administrator does not obtain authorisation or, if based in a non-European Union jurisdiction, the administrator is not otherwise recognised as equivalent; and the methodology or other terms of the “benchmark” could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could (among other things) have the effect of reducing or increasing the rate or level, or affecting the volatility, of the published rate or level of the benchmark. If any proposed changes change the way in which the benchmarks are calculated or a benchmark is discontinued or is not otherwise permitted to be used by the Company, this could adversely affect a Sub-Fund and its Net Asset Value.

SFDR – Legal Risk

The series of legal measures (including SFDR) requiring firms that manage investment funds to provide transparency on how they integrate sustainability considerations into the investment process with respect to the investment funds they manage (the EU sustainable finance action plan) are being introduced in the European Union on a phased basis and some elements (for example supporting regulatory technical standards) are subject to implementation delays. The Investment Committee seeks to comply with all legal obligations applicable to it but notes there may be challenges in meeting all the requirements of these legal measures as they are introduced. The Company may be required to incur costs in order to ensure compliance with these new requirements as part of the initial implementation phase and to incur further costs as the requirements change and further elements are introduced. This could be the case in particular if there are adverse political developments or changes in government policies as the implementation phase progresses. These elements could impact the viability of the Sub-Funds and their returns.

ESG Data Reliance

The scope of SFDR is extremely broad, covering a very wide range of financial advisors and financial market participants with regard to the integration of sustainability risks and the consideration of adverse sustainability impacts in their processes and the provision of sustainability-related information with respect financial products. It seeks to achieve more transparency regarding how financial market participants integrate Sustainability Risks into their investment decisions and consideration of adverse sustainability impacts in the investment process. Data constraint is one of the biggest challenges when it comes to sustainability related information to end-investors, especially in the case of principal adverse impacts of investment decisions, and there are limitations on sustainability and ESG-related data provided by market participants in relation to comparability.

ESG Investing

Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities in which the Company might otherwise invest. Such securities could be part of the benchmark against which the Company is managed or be within the universe of potential investments. This may have a positive or negative impact on performance and may mean that the Company's performance profile differs to that of funds which are managed against the same benchmark or invest in a similar universe of potential investments but without applying ESG or sustainability criteria.

Furthermore, the lack of common or harmonised definitions and labels regarding ESG and sustainability criteria may result in different approaches by managers when integrating ESG and sustainability criteria into investment decisions. This means that it may be difficult to compare funds with ostensibly similar objectives and that these funds will employ different security selection and exclusion criteria. Consequently, the performance profile of otherwise similar funds may deviate more substantially than might otherwise be expected. Additionally, in the absence of common or harmonised definitions and labels, a degree of subjectivity is required, and this will mean that a fund may invest in a security that another manager or an investor would not.

With the exception to the Hanson Sustainable Income Fund, the Company currently does not apply any ESG criteria for the Company or any of its other Sub-Funds. As a result, and with the exception to the Hanson Sustainable Income Fund, the Company does not apply negative screening to exclude specific sectors or companies based on ESG criteria.

The Company does not aim to achieve long-term capital growth integrating an ESG approach. But this situation may change depending on the regulatory and legal framework. In this case this Prospectus will be updated.

It should also be noted that the Taxonomy Regulation will in due course provide a common taxonomy for identifying economic activities as environmentally sustainable within the European Economic Area. However, the scope of the Taxonomy Regulation will initially be limited to six environmental objectives (and so will not cover the entire universe of ESG objectives) and is not currently expected to be used universally, outside of the European Economic Area. For the purposes of the Taxonomy Regulation, with the exception to the Hanson Sustainable Income Fund, it should be noted that the investments underlying the remaining Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Specific Restrictions in Connection with the Investor Shares

Investors should note that there may be restrictions in connection with the subscription for, holding, transferring and redemption of the Investor Shares in a particular Sub-Fund. Such restrictions may have the effect of preventing the investor from freely subscribing for, holding and/or redeeming the shares. In addition to the features described below, such restrictions may also be caused by specific requirements such as the minimum amount that may be held or invested in any particular Class of Investor Shares.

Maximum Repurchase Amount

The Company will have the option to limit the number of Investor Shares in any Sub-Fund repurchased on any Dealing Day (other than at the specified maturity date, where applicable) to a stated percentage of the total NAV of that Sub-Fund on that Dealing Day and, in conjunction with such limitation, to pro rata limit the number of Investor Shares repurchased by any Shareholder on such Dealing Day so that all Shareholders wishing to have Investor Shares in that Sub-Fund repurchased on that Dealing Day realise the same proportion of such Investor Shares. In the event the Company elects to limit the number of Investor Shares repurchased on such date, a Shareholder may not be able to repurchase on such Dealing Day all the Investor Shares that it desires to repurchase. Investors should review this Prospectus and the relevant Offering Supplement to ascertain when and how such provisions may apply.

Limited Transferability

Since the Directors may decline to register a transfer of Investor Shares at their sole and absolute discretion, Shareholders may not be able to dispose of their investments privately and therefore would have to utilise the Company's redemption or repurchase programme, which itself may be subject to restrictions, albeit to be exercised in exceptional circumstances, where the circumstances so require, and when suspension is justified having regard to the interest of the Shareholders. Furthermore, the Company may be required by

the MFSA to suspend redemptions where it is considered to be in the interest of Shareholders – see the part entitled "Redemption of Shares" below.

Illiquidity of Investor Shares

There will be no secondary market for the Investor Shares, and consequently, Shareholders can normally dispose of the Investor Shares only by means of redemption on any Redemption Day as described herein. There is no assurance that the Company will be able to liquidate the portfolio securities attributable to the Investor Shares being redeemed without losses. These losses might have an adverse effect on the NAV of that Sub-Fund and thus on the redemption proceeds that will be received by the outgoing investor. In the event of unsettled market conditions, or if for any reason the Company is unable to liquidate its investments or if it is obliged to suspend dealings in its Investor Shares, the Company may be unable to redeem such Investor Shares.

Substantial Redemptions

Substantial redemption / repurchase of investor Shares in a particular Sub-Fund could require the Company to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Investor Shares in that Sub-Fund. In these circumstances, the Company may defer redemptions / repurchases. Substantial redemptions / repurchases might cause the liquidation of the Company.

Illiquidity in certain markets could also make it difficult for any Sub-Fund of the Company to liquidate positions on favourable terms, thereby resulting in a decrease in the value of the assets. In these circumstances, the non-redeeming Shareholders will bear a disproportionate risk of any decline in the value of a Sub-Fund's assets subsequent to the redemptions.

Temporary Suspension in Redemptions

The Directors have the power to suspend redemption of Investor Shares for which redemption requests have been received if they should determine that the calculation of the Net Asset Value is not practicable or reasonable, or that redemption would involve the realisation of assets of the Sub-Fund which in the opinion of the Directors could, if realised at that particular moment in time, adversely affect and prejudice the interest of Shareholders in that Sub-Fund.

No issue of Investor Shares will take place during any period when the redemption of Investor Shares has been suspended.

Notice of the suspension of redemption will be given to any shareholder tendering his shares for redemption. The redemption will then take place on the first Redemption Day following the end of the suspension.

Suspension in the determination of the NAV

The Company reserves the right to suspend the determination of the Net Asset Value of a Sub-Fund. In such cases a Shareholder may be unable to redeem his Investor Shares in a Sub-Fund within the normal timeframes described in this Prospectus.

Compulsory Redemptions

The Company reserves the right to require a Shareholder to redeem its total shareholding, within one (1) Business Day of a notice of intent to do so, in the event that the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Company or the Shareholders as a whole, or, if as at any Valuation Point, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Company or a Sub-Fund. Such compulsory redemptions, which will take place at the prevailing Redemption Price, may crystallise losses and/or deprive an investor of the opportunity to recover losses or otherwise gain from investing in the Sub-Fund concerned.

Market Disruption Events & Settlement Disruption Events

A determination of a market disruption event or a settlement disruption event in connection with any Sub-Fund's assets may have an effect on the value of the Investor Shares in that Sub-Fund and may delay

settlement in respect of the Sub-Fund's assets.

Confidential Information

The Investment Manager may, in connection with its other business activities, acquire material non-public confidential information that may restrict it from purchasing assets or selling assets for itself or its clients (including the Company) or otherwise using such information for the benefit of its clients or itself.

Conflicts of Interest

Conflicts of interest may arise between the Company and certain Relevant Parties (being the persons or entities involved in the management of the Company or offering services to it and/or the Investment Manager, the Administrator, the Depositary or other service providers or counterparties to the Company including any prime brokers, sub-custodians and futures clearers which may be appointed in respect of the Sub-Funds). The Relevant Parties which may be appointed in respect of the Sub-Funds (including their respective principals, shareholders, members, directors, officers, agents or employees) may from time to time act as investment manager, depositary, registrar, broker, administrator, investment advisor, prime broker or futures clearer, distributor or dealer in relation to, or otherwise be involved in, other funds established by parties other than the Company and/or the Sub-Funds, as the case may be, which have similar objectives and which make investments similar to those made on behalf of a Sub-Fund of the Company. Such clients could thus compete for the same trades or investments, and whilst available investments or opportunities for each client are generally expected to be allocated in a manner believed to be equitable to each, certain of the allocation procedures may adversely affect the price paid or received for investments or the size of positions obtained or disposed.

Conflicts may also arise as a result of the other services provided by affiliates of the Investment Manager which may provide advisory, custody or other services to the Investment Manager. Similarly the Directors may also be directors of other companies in which the Company may invest, which could result in conflicts of interest. Generally, there may be conflicts of interest between the interests of the Company and the interests of the Investment Manager and its affiliates and the Directors to generate fees, commissions and other revenues. In the event that such a conflict of interest arises, the Directors will endeavour to ensure that it is resolved in the best interest of the Company. It should be noted that the Investment Manager of any of the Sub-Funds, as well as its affiliates, may at any time also be offering their services to one or more of the investors in the Sub-Funds.

Furthermore, the Directors or the Investment Manager may have equity stakes in the funds to which they are providing their services, or own or have an interest.

Taxation

Investors in the Investor Shares in a particular Sub-Fund should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or any other kind of tax on distributions or deemed distributions of the Sub-Funds, capital gains within the Sub-Funds, whether or not realised, income received or accrued or deemed received within the Sub-Fund etc., and this will be according to the laws and practices of the country where the Investor Shares are purchased, sold, held or redeemed and in the country of residence or nationality of the Shareholder.

Investors should be aware of the fact that they might have to pay taxes on income or deemed income received by or accrued within a Sub-Fund. Taxes might be calculated based on income received and/or deemed to be received and/or accrued in the Sub-Fund in relation to the Sub-Fund asset, whereas the performance of the Sub-Fund, and subsequently the return investors receive after redemption of the Shares, might partially or fully depend on the performance of underlying assets of an FDI. This can have the effect that the investor has to pay taxes for income or/and a performance which he does not, or does not fully, receive.

Investors who are in any doubt as to their tax position should consult their own independent tax advisors. In addition, investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment, which will apply at any given time.

Change of Law

The Company must comply with regulatory constraints, such as a change in the laws affecting the Investment

Restrictions, which might require a change in the investment policy and objectives followed by a Sub-Fund.

Political and/or Regulatory Risk

The performance of the Investor Shares in a particular Sub-Fund or the possibility to purchase, sell, or repurchase may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, laws or regulations (including regarding taxation), the imposition of restrictions on the transfer of capital and changes in regulatory requirements in the Company's home jurisdiction or in countries where a Sub-Fund is invested. The legal infrastructure, accounting, auditing and reporting standards in certain jurisdictions in which the capital of a Sub-Fund may be invested may not offer the same degree of investor protection or information as is normally expected in major securities markets.

Dependence on Key Individuals

The Company's success depends to a significant extent, upon a number of persons to properly manage the Company and the Investment Manager's ability in respect of the day to day management of the assets of the Sub-Funds. To the extent that such activities relate to the operations of the Company, the Company may be adversely affected if the persons responsible for these activities cease to participate in the operation of the Company or of the Investment Manager. The loss of such a key individual's services (e.g. through death, disability, retirement or leaving the employment of the Investment Manager) could cause the Company to suffer losses.

Liability for Fees and Expenses

The fees and expenses relating to a Sub-Fund will be paid by the Company out of the assets of the relevant Sub-Fund as set out in the Section entitled "Fees, Compensation and Expenses" and the relevant Offering Supplement. However, to the extent that:

- (1) the arrangements for funding the payment by the Company of the fees and expenses do not generate the necessary funds to discharge all of the Company's liabilities in respect of the Sub-Fund; or
- (2) the Company incurs any fees, expenses or other liabilities which are not budgeted for by the Company and accordingly fall outside the scope of the arrangements referred to in (1) above,

the Company will pay such fees, expenses or liabilities from the Sub-Funds' assets. The Company's liability in respect of such amounts will be borne by the relevant Sub-Fund as more fully described under "Cross Liability between Classes" below.

Fee Structure

The Company will bear the fees paid to the Investment Manager, the Risk Manager, any Authorised Distributor, the Depositary, the Administrator and other service providers. Further, certain of the strategies employed in the Sub-Funds, or in investments made by the Sub-Funds, may require frequent changes in trading positions and consequent portfolio turnover.

Borrowing Risks

The Company in respect of a Sub-Fund may not be able to repay borrowings or may be forced to sell investments at a disadvantageous time in order to repay borrowings. The Company in respect of a Sub-Fund might elect to sell its more liquid assets to repay borrowings, or to meet redemptions, thus increasing its concentration in less liquid securities.

Indemnities

The Directors and Officers, the Investment Manager, the Risk Manager, any Authorised Distributor, the Depositary and the Administrator and each of their directors, officers, employees and agents are entitled to be indemnified in certain circumstances outlined in the Memorandum and Articles and/ or in the related agreement, as applicable. As a result, there is a risk that the Company's assets will be used to indemnify such persons, companies or their employees or satisfy their liabilities as a result of their activities in relation

to the Company. Reference should be made to the Section entitled “Indemnities” for further details.

Cross Liability between Classes - Allocation of shortfalls among Classes of Investor Shares in a Sub-Fund

The right of holders of any Class of Investor Shares to participate in the assets of the Company is limited to the assets (if any) of the relevant Sub-Fund to which his Investor Shares relate and all the assets comprising a Sub-Fund will be available to meet all of the liabilities of that Sub-Fund, regardless of the different amounts stated to be payable on the separate Classes of Investor Shares constituting that Sub-Fund.

Consequences of winding-up proceedings

If the Company fails for any reason to meet its obligations or liabilities, or is unable to pay its debts, a creditor may be entitled to make an application for the winding-up of the Company. The commencement of such proceedings may entitle creditors (including counterparties) to terminate contracts with the Company (including Sub-Fund assets) and claim damages for any loss arising from such early termination. Notwithstanding that Maltese law caters for the insolvency of a sub-fund distinctly from that of an investment company with segregated cells, so that the insolvency of any Sub-Fund does not affect the Company or its unaffected sub-funds, the commencement of such proceedings may result in the Company being dissolved and its assets (including the assets of all Sub-Funds) being realised and applied to pay the fees and expenses of the appointed liquidator or other insolvency officer, then in satisfaction of debts preferred by law and then in payment of the Company's liabilities, before any surplus is distributed to the shareholders of the Company. In the event of proceedings being commenced, the Company may not be able to pay, in full or at all, any amounts due in terms of this Prospectus to the Shareholders, including the redemption amounts for repurchased shares in respect of any Sub-Funds.

Nominee Arrangements

Where Investor Shares in a Sub-Fund are held by a nominee service provider on behalf of an investor, or/and investor holds interests in the Investor Shares of any Sub-Fund through accounts with a clearing system, such investor will only receive payments in respect of redemption proceeds and/or any dividends attributable to the Investor Shares on the basis of the arrangements entered into by the investor with the nominee service provider or Clearing System, as the case may be.

Furthermore, any such investor will not appear on the share register of the Company (the “**Register**”), will have no direct right of recourse against the Company and must look exclusively to the nominee service provider or clearing system for all payments attributable to the relevant Shares. The Company and the Directors will recognise as Shareholders only those persons who are at any time shown on the Register for the purposes of (i) the payment of dividends and other payments due to be made to Shareholders (as applicable); (ii) the circulation of documents to Shareholders; (iii) the attendance and voting by Shareholders at any meetings of Shareholders; and (iv) all other rights of Shareholders attributable to the Shares. None of the Company, the Directors, the Investment Manager, the Administrator, the Depositary or any other person will be responsible for the acts or omissions of any nominee service provider or clearing system, nor make any representation or warranty, express or implied, as to the services provided by any nominee service provider or clearing system. The Administrator is not authorised to have nominee arrangements which require a licence under the ISA.

Performance Fees

To the extent that the Investment Manager will be entitled to receive a performance fee from the Company, such fees may create an incentive for the Investment Manager to engage in investment strategies and make investments that are more speculative than would be the case in the absence of such fees.

Furthermore, the increase in NAV which is used as a basis for the calculation of performance fees, may be comprised both of realised gains as well as unrealised gains as at the end of the calculation period, and as a result, performance fees may be paid on unrealised gains which may subsequently never be realised by the Sub-Funds. The performance fee payable to the Investment Manager is not subject to a cap or a maximum amount.

Unless otherwise stated in a particular Offering Supplement for a Sub-Fund, the Company will not adopt an equalisation methodology for the calculation of the performance fee. Shareholders may according underpay / over pay any performance fee due to the Investment Manager when subscribing and / or redeeming their

Investor Shares.

General

Any investor who is in any doubt about the risks of investing in any of the Sub-Funds should consult his or her own financial advisor.

The share capital of the Company shall be equal at any time to the value of the issued share capital of the Company. The Company may issue up to a maximum of ten billion one thousand (10,000,001,000) Shares without any nominal value assigned to them. The actual value of the paid up share capital of any Sub-Fund shall be at all times equal to the value of the assets of any kind of the particular Sub-Fund after the deduction of such Sub-Fund's liabilities. Shares will be issued as fully paid. No Shares have preferences, pre-emptive, conversion or exchange rights. Other than as stated herein, there are no outstanding options or any special rights relating to Shares.

The Articles provide that unissued Shares are at the disposal of the Directors who may offer, allot, grant options over or otherwise dispose of them to such persons, at such times and upon such terms and conditions as the Directors may determine. All Shares will be issued in registered form only.

Prospective investors should note that there are no provisions under the Articles conferring pre-emption rights on the holders of Investor Shares or Founder Shares.

Founder Shares

The Company has issued one thousand (1,000) Founder Shares with no nominal value, which Founder Shares constitute a separate Class of Shares of the Company but does not constitute a sub-fund. Six hundred (600) Founder Shares are held by Mr. Edward Collins (Director) and four hundred (400) Founder Shares are held by Arlington Capital Limited (the Investment Manager).

Holders of Founder Shares shall have the right to receive notice of, attend and vote on any matter requiring the approval of Shareholders generally as contained in the Memorandum and Articles and applicable law. Holders of Founder Shares shall not be entitled to participate in any dividends or other distribution of the Company or in the assets of the Company on a winding up (other than the return of the paid up capital after payment of all amounts due to the holders of Investor Shares). The Founder Shares have the exclusive right (alongside the Directors themselves or a committee appointed for the purpose by the Directors) to nominate persons for election to the office of Director.

Investor Shares

The Company has designated the maximum number of Investor Shares on offer in each Class as stated in the relevant Offering Supplements.

The Directors may from time to time split Investor Shares into a greater number of Investor Shares or consolidate Investor Shares and such transactions shall be carried out based on the applicable Subscription Price as at the last Valuation Point for the relevant Dealing Day before the transaction is effected.

Holders of Investor Shares shall have the right to receive notice of, attend and vote solely with respect to the following matters:

- (1) the variation of the rights attached to a class of shares;
- (2) any amendment to the investment objectives of a Sub-Fund (to the extent that the holders of Investor Shares are members of such Sub-Fund); and
- (3) the appointment and, or removal of directors.

Holders of Investor Shares shall be entitled to participate in the assets of the Sub-Fund to which they relate and in any dividends and distributions of that Sub-Fund upon liquidation. All Investor Shares participate equally in the net assets of the Class and Sub-Fund to which they relate and in any dividends and other distributions attributable thereto. Shareholders only have rights to participate, pro-rata, in the assets of Sub-Funds of which they hold Investor Shares at any time and have no rights against the assets of other Sub-Funds in which they have no Investor Shares.

Investor Shares may be issued as fractional shares up to four (4) decimal places. Fractional Investor Shares will be consolidated into whole Investor Shares when a Shareholder holds enough fractional Investor Shares to make up a whole Investor Share. With the exception of voting rights, the holders of fractional Investor Shares carry the same rights as integral shares of the same Class and exercisable in proportion to the fraction held.

Voting Rights

Subject to any rights or restrictions for the time being attached to any Class or Classes of Shares as may be set out in the Offering Supplement relating to a Sub-Fund, on a show of hands every holder who is present in person or by proxy and entitled to vote on a particular matter, shall have one vote for every voting Investor Share of which he is the holder and on a poll every holder present in person or by proxy shall have one vote for every relevant Investor Share of which he is the holder. Holders who hold a fraction of an Investor Share may not exercise any voting rights, whether on a show of hands or on a poll, in respect of such fraction of an Investor Share. In terms of the Memorandum and Articles, holder of Investor Shares have the right to receive notice of, attend and vote solely with respect to the matters set out under "Investor Shares" above.

Alterations to the Company's Share Capital

The Company may increase or reduce the maximum number of Shares which may be issued by the Company by an extraordinary resolution (i.e. a resolution notice of which has been given prior to the meeting, and which is approved by 75% of the Shareholders present at the meeting and entitled to vote thereon and at least 51% of all Shareholders who are entitled to vote thereon).

Amendment to Memorandum and Articles of Association

Subject as provided herein, the Memorandum and Articles may be altered or amended only by the passing of an extraordinary resolution to that effect by the holders of the shares in the Company holding voting rights in that regard. Revisions to the Memorandum and Articles are also subject to the prior approval of the MFSA.

Variation of Class Rights

If at any time the authorised capital is divided into classes of Shares, the rights attached to any then existing class (unless otherwise provided by the terms of issue of the Shares of that class) may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of not less than three-fourths ($\frac{3}{4}$) of the issued Shares of that class and of any other class of Shares which may be affected by such variation. The said consent can also be obtained by the Company through a request for consents in writing in a circular sent to the holders of the effected Shares.

In terms of the Articles, the following are, in the absence of any other variations of class rights, not be deemed to be a variation of the rights attaching to any particular class of Shares for the Company:

- (1) the creation, allotting or issue of further Shares in the same Class ranking at least *pari passu* therewith;

- (2) the creation, allotment, issue or redemption of shares in any other Class including the creation of other Sub-Funds;
- (3) if the Company shall be wound up; or
- (4) the conversion of Shares of any Class into Shares of another Class.

Further Issues of Investor Shares

The Investor Shares shall be at the disposal of the Board of Directors, and the Company may, by resolution of the Board, at any time decide to offer further Investor Shares by means of the issue of an Offering Supplement to a maximum amount of Investor Shares comprised in the authorised share capital and, without prejudice to any special rights previously conferred on the holders of existing Investor Shares, to allot, issue, grant options over or otherwise dispose of the Investor Shares or any other classes of Investor Shares (including fractions of Investor Shares) with or without preferred, deferred or other special rights or restrictions, whether with regard to dividend, voting or otherwise and to such persons, at such times and on such other terms as the Board shall think proper, but not in a manner to reduce the financial rights of Shareholders without their consent.

The Company may, at any time, issue additional Classes of Investor Shares constituting other Sub-Funds or additional Classes of Investor Shares in existing Sub-Funds, which may be designated in any currency and with particular investment objectives, policies and restrictions, and the assets of which may be managed utilising different methodologies, investing in different markets with particular opportunities and investment risk characteristics. Such other Class(es) of Investor Shares will be offered by means of an Offering Supplement for the specific Sub-Fund. When making an Initial Offering of Investor Shares in a newly established Sub-Fund or in an existing Sub-Fund, the Directors shall establish the Initial Offering Price for such Investor Shares at the time of offer and this shall be stated in the Offering Supplement for the specific Sub-Fund.

Repurchase of Investor Shares

Under the Companies Act, the Company is permitted to repurchase or redeem its Investor Shares without restriction. Repurchased or redeemed Investor Shares shall be treated as cancelled and deemed never to have been issued for the purpose of calculation of the maximum number of Investor Shares which may be issued, and shall be available for reissue by the Company at any time in the future. Redemptions of Investor Shares will be based on the NAV per Share in accordance with the Company's Memorandum and Articles and this Prospectus. Reference should be made to the Section entitled "*Redemption of Shares*" for further details.

Limiting Changes in Portfolio

A net reduction or increase in the number of Investor Shares in issue of any Sub-Fund would normally result in a reduction or increase, and other adjustments, in the portfolio of assets of that Sub-Fund. Dealing and other transactional costs can be incurred as a result of such changes in the portfolio. In order to mitigate this effect, the Company may arrange or procure, without obligation, that one or more entities will be given the opportunity to match, wholly or partially, with a subscription for Investor Shares, any expected net cash outflow from the redemption or repurchase of Investor Shares requested by other investors, and conversely with a request for redemption of Investor Shares, any expected net cash inflow from subscription for Investor Shares by other investors. Such matching transactions will invariably be carried on a Dealing Day and at the relevant NAV per Share.

Closure of a Sub-Fund

Apart from cases where the assets of a Sub-Fund are not sufficient to meet the liabilities in respect of such Sub-Fund, in which case the rules on insolvency will apply to the Sub-Fund in question, Sub-Funds of the Company may be closed from time to time and their licence surrendered to MFSA. In cases where there are no outstanding Investor Shares in a Sub-Fund, as a result of redemptions or exchanges of Investor Shares with Investor Shares in another Sub-Fund, the Directors may resolve to close the Sub-Fund in question and surrender its licence to the MFSA. Where there are outstanding Investor Shares in a Sub-Fund, then the consent in writing of 75% of the Shareholders in that Sub-Fund will be required in terms of the Memorandum and Articles unless the Directors are exercising their powers thereunder relating to mandatory redemption of all Investor Shares in that Sub-Fund. Please see the Section entitled "*Redemption of Shares*" for further

details on this power.

The MFSA must consent to the closure of a Sub-Fund and to the surrender of its Licence.

Liquidation

The Company and the Sub-Funds have been incorporated for an indefinite period, unless otherwise provided in the Offering Supplement relating to a Sub-Fund and unless closed or liquidated as hereunder described.

Of a Sub-Fund

Apart from the rules applicable to the closure of a Sub-Fund which are outlined in the Memorandum and Articles and in this Prospectus (see the Part entitled "Closure of a Sub-Fund" above), a Sub-Fund may be dissolved and wound up either voluntarily or under supervision or by the court. Upon the winding up or dissolution (whether the liquidation is voluntary or by the Court) of any Sub-Fund, the assets of such Sub-Fund available for distribution (after satisfaction of creditors' claims) amongst the Shareholders of such Sub-Fund shall be distributed to the Shareholders of such Sub-Fund pro rata to their respective shareholding. Amounts which have not been claimed by Shareholders at the close of the liquidation of any Sub-Fund will be deposited in an account in the Shareholder's name with a trustee selected by the liquidator. Any such amount not claimed within a period of seven (7) years will be donated to a Maltese enrolled voluntary organisation selected at the discretion of the trustee.

Of the Company

Subject to all Sub-Funds in the Company being closed, the Company may be dissolved and wound up either voluntarily or under supervision or by a competent Court. The Company may be placed in voluntary liquidation at any time by a resolution adopted by the holders of Shares holding voting rights in the same manner as that required for amending the Memorandum and Articles. Any voluntary liquidation of the Company shall be carried out pursuant to applicable Maltese laws and the Memorandum and Articles. Amounts which have not been claimed by Shareholders at the close of the liquidation will be deposited in an account in the Shareholder's name with a trustee selected by the liquidator. Any such amount not claimed within a period of seven (7) years will be donated to a Maltese enrolled voluntary organisation selected at the discretion of the trustee. Any proceedings in relation to the Company shall respect the legal status of each Sub-Fund as a patrimony separate from the assets and liabilities of each other Sub-Fund and proceedings under the Companies Act shall apply *mutatis mutandis* to each Sub-Fund as though it were a distinct legal entity and with such modifications as are necessary to accommodate the fact that a Sub-Fund is not a company. Any proceedings in relation to any one Sub-Fund shall not have any effect on the assets of any other Sub-Fund or of the Company itself. The term 'proceedings' as used herein refers to any proceedings whatsoever including the proceedings in terms of Title II of Part V and of Part VI of the Companies Act.

Prevention of Money Laundering and Data Protection

Anti-Money Laundering Measures (Maltese Requirements)

The Company is a subject person in terms of the Prevention of Money Laundering Act (Cap 373, Laws of Malta). The Company is required to ensure full compliance with all applicable Maltese and international anti-money laundering legislation.

The Company has appointed a Money Laundering Reporting Officer ("MLRO"). The day-to-day anti-money laundering procedures would be conducted by the Administrator however the MLRO will retain responsibility for the anti-money laundering obligations of the Company and in this regard will monitor the Administrator through regular visits to the Administrator.

Measures aimed at the prevention of money laundering require an applicant for Investor Shares to verify his identity and/or source of funds to the Administrator.

The specific requirements could include, inter alia, the fundamental requirement to Know Your Client, which extends, for any 'non-individual' investor, to the ultimate beneficial owner(s) of the monies invested. This requirement is principally satisfied through documentary evidence, as may be requested by the Administrator.

It should be noted that the Administrator may request further information, in order to satisfy its regulatory obligations.

The completion of the Subscription Application serves as confirmation that the Shareholder understands and agrees to furnish the requested documents. It also represents the first request for such documents. The Administrator may reject a subscription for Investor Shares in the Company if it has not received all such documents as may be requested by the Administrator in order for it to comply with its Know Your Client procedures and its client identification requirements.

It must also be noted that the Administrator will not allow the remittance of redemption monies to a Shareholder until all documents requested have been received. Further, it is a regulatory requirement to report suspicious transactions, and any relevant data in this regard may need to be transferred to the relevant regulators.

There is also a requirement to know the investors' source of wealth. A further requirement is to know the source of the funds, such requirement normally limited to knowing the bank and account from which the monies were remitted. A further requirement is that such monies invested may only be redeemed to the account of remittance, except in exceptional circumstances where agreed to by the Administrator.

Finally as the aforementioned legislation is subject to change, any additional requirements imposed on the Administrator will be reflected in the requirements applicable to an investor subscribing for Investor Shares in a Sub-Fund.

In the case of investors subscribing for Investor Shares in any Sub-Fund through an Authorised Distributor or another appropriately authorised intermediary, the Administrator may, subject to ongoing compliance with the requirements of applicable prevention of money laundering and funding of terrorism legislation, rely on the AML checks carried out by such Authorised Distributor or intermediary as the case may be.

Other Anti-Money Laundering Requirements

As part of the Administrator's responsibility to comply with regulations aimed at the prevention of money laundering and terrorist financing, the Administrator may require a detailed verification of an investor's identity, any beneficial owner of the investor, and the source of the investor's subscription payment.

The Administrator reserves the right to request such information as is necessary to verify the identity of a prospective investor and any underlying beneficial owner of the investor. The Administrator also reserves the right to request such identification evidence in respect of a transferee of Investor Shares. In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Administrator may refuse to accept or delay the acceptance of the Subscription Application, or

(as the case may be) to register the relevant transfer of Investor Shares, and (in the case of a subscription for Investor Shares) any funds received will be returned without interest to the account from which the monies were originally debited.

The Administrator also reserves the right to refuse to make any redemption payment or distribution to a Shareholder, if any of the Directors of the Company or the Administrator is advised that the payment of any redemption or distribution moneys to such Shareholder might result in a breach or violation of any applicable anti-money laundering laws or the laws, regulations, and executive orders administered by the U.S. Department of Treasury's Office of Foreign Assets Control ("OFAC"), or other laws or regulations by any person in any relevant jurisdiction (collectively, "AML/OFAC obligations").

Each Subscriber will be required to make such representations as the Company or the Administrator may require in connection with applicable AML/ OFAC obligations, including, without limitation, representations that such Subscriber is not:

- (1) an individual or entity named on any available lists of known or suspected terrorists, terrorist organisations or of other sanctioned persons issued by the United States government and the government(s) of any jurisdiction(s) in which the Company is doing business, including the List of Specially Designated Nationals and "Blocked Persons" administered by OFAC as such list may be amended from time to time;
- (2) an individual or entity otherwise prohibited by the OFAC sanctions programs; or
- (3) a current or former senior foreign political figure¹ or politically exposed person², or an immediate family member or close associate of such an individual.

Further, such Subscriber must represent that it is not a prohibited foreign shell bank³.

The Directors may, in their absolute discretion accept a Subscription Application from a current or former senior foreign political figure or politically exposed person, or an immediate family member or close associate of such an individual.

Such Subscriber will also be required to represent that amounts contributed by it to the Company were not directly or indirectly derived from activities that may contravene U.S. Federal, state or international laws and regulations, including, without limitation, any applicable anti-money laundering laws and regulations.

Each Subscriber and Shareholder agrees to notify the Company and the Administrator promptly in writing should it become aware of any change in the information set forth in its representations. The Subscriber or Shareholder is advised that, by law, the Company may be obligated to "freeze the account" of such Subscriber or Shareholder, either by prohibiting additional investments from the Subscriber or Shareholder, declining any withdrawal requests from the Subscriber or Shareholder, suspending the payment of withdrawal proceeds payable to the Subscriber or Shareholder, and/or segregating the assets in the account in compliance with governmental regulations. The Company and the Administrator may also be required to report such action and to disclose the Subscriber or Shareholder's identity to OFAC or other applicable governmental and regulatory authorities.

¹ A "senior foreign political figure" is defined as (a) a current or former senior official in the executive, legislative, administrative, military or judicial branches of a non-U.S. government (whether elected or not), a current or former senior official of a major non-U.S. political party, or a current or former senior executive of a non-U.S. government-owned commercial enterprise; (b) a corporation, business, or other entity that has been formed by, or for the benefit of, any such individual; (c) an immediate family member of any such individual; and (d) a person who is widely and publicly known (or is actually known) to be a close associate of such individual. For purposes of this definition, a "senior official" or "senior executive" means an individual with substantial authority over policy, operations, or the use of government-owned resources; and "immediate family member" means a spouse, parents, siblings, children and spouse's parents or siblings.

² A "politically exposed person" ("PEP") is a term used for individuals who are or have been entrusted with prominent public functions in a foreign country, for example Heads of State or of government, senior politicians, senior government, judicial or military officials, senior executives of state owned corporations, important political party officials.

³ A "prohibited foreign shell bank" is a foreign bank that does not have a physical presence in any country, and is not a "regulated affiliate," *i.e.*, an affiliate of a depository institution, credit union, or foreign bank that (i) maintains a physical presence in the U.S. or a foreign country, and (ii) is subject to banking supervision in the country regulating the affiliated depository institution, credit union, or foreign bank.

In the course of business the Company and/or any of its delegates or service providers, collect, record, store, adapt, transfer and otherwise process information by which prospective investors may be directly or indirectly identified ("**personal data**"). The Company and/or any of its delegates is a "data controller", within the meaning of Data Protection Legislation, and undertakes to hold any personal information provided by investors in confidence and in accordance with Data Protection Legislation.

The Company and/or any of its delegates may process an investor's personal data for any one or more of the following purposes and legal bases:

- (a) Operating the Sub-Funds, including managing and administering an investor's holding in the relevant Sub-Fund and any related accounts on an on-going basis (i.e. for the performance of the Company's contract with the investor);
- (b) To comply with any applicable legal, tax or regulatory obligations, including legal obligations under company law, anti-money laundering legislation, taxation laws and financial services regulations;
- (c) For any other legitimate business interests of the Company or a third party to whom the data is disclosed, where such interests are not overridden by the interests of a data subject, including for statistical analysis (including data profiling) and market research purposes; or
- (d) For any other specific purposes where investors have given their specific consent. Where processing of personal data is based on consent, the investors will have the right to withdraw it at any time.

The Company and/or any of its delegates or service providers may disclose or transfer personal data, whether in Malta or elsewhere (including companies situated in countries outside of the EEA), to third parties, including financial advisers, regulatory bodies, taxation authorities, auditors, technology providers or to a Sub-Fund or the Company's delegates and its or their duly appointed agents and any of their respective related, associated or affiliated companies for the purposes specified above.

Please note that investors' personal data will be retained by the Company for the duration of their investment and otherwise in accordance with the Company's legal obligations including, but not limited to, the Company's record retention policy. In determining appropriate retention periods, the Company shall have regard to the purpose(s) for which it was collected, the prescriptive periods under Maltese law (statutes of limitation) and any statutory obligations to retain information, including anti-money laundering, revenue and tax legislation. The Company will take all reasonable steps to destroy or erase the data from its systems when they are no longer required.

Where specific processing is based on an investor's consent, that investor has the right to withdraw it at any time. Investors have the right to request access to their personal data kept by Company; and the right to rectification or erasure of their data; to restrict or object to processing of their data, and to data portability.

The Company and/or any of its delegates will not transfer personal data to a country outside of the EEA unless that country ensures an adequate level of data protection or appropriate safeguards are in place. The European Commission has prepared a list of countries that are deemed to provide an adequate level of data protection which, to date, includes Andorra, Argentina, Canada (limited to commercial organisations), Faroe Islands, Guernsey, Israel, Isle of Man, Jersey, New Zealand, Switzerland, and Uruguay, as providing adequate protection. Further countries may be added to this list by the European Commission at any time. The US is also deemed to provide an adequate level of protection where the US recipient of the data is Privacy Shield-certified. If a third country does not provide an adequate level of data protection, then the Company and/or any of its delegates will rely on the "Model clauses" (which are standardised contractual clauses, approved by the European Commission) or Binding Corporate Rules or one of the other alternative measures provided for in Data Protection Legislation.

Where processing is carried out on behalf of the Company, the Company shall engage a "data processor", within the meaning of Data Protection Legislation, who provides sufficient guarantees to implement appropriate technical and organisational security measures in such a manner that processing meets the requirements of Data Protection Legislation, and ensures the protection of the rights of investors. The Company will enter into a written contract with the data processor which will set out the data processor's specific mandatory obligations laid down in Data Protection Legislation, including to only process personal data on documented instructions from the Company.

As part of the Company's business and ongoing monitoring, the Company may from time to time carry out automated decision-making in relation to investors, including profiling of investors, and this may result in an investor being identified to tax revenue and law enforcement authorities, and the Company terminating its

relationship with the investor.

Investors are required to provide their personal data for statutory and contractual purposes. Failure to provide the required data will result in the Company being unable to permit the investor's investment in the Sub-Funds and this may result in the Company terminating its relationship with the investor. Investors have a right to lodge a complaint with the Information and Data Protection Commissioner in Malta if they are unhappy with how the Company is handling their data.

If you have any queries regarding this data protection notice, please contact the Directors at the address provided in the Directory.

Purchase, Exchange and Transfer of Shares

General

Each Sub-Fund can be constituted by multiple Classes of Investor Shares. Each Class represents an interest in the Sub-Fund's portfolio, but may have its own characteristics, such as fee structure, Minimum Investment, Minimum Holding, dividend policy or Base Currency.

Purchase of Investor Shares

Investor Shares are issued in registered form, meaning that the Shareholder's name is recorded in the Sub-Fund's register of Shareholders. A written confirmation of this ownership in the form of a contract note will be sent to each Shareholder.

Investor Shares in issue must be fully paid-up. Investor Shares have no par value and carry no preferential or pre-emptive rights. Applications to acquire Investor Shares are subject to the restrictions appearing in this Prospectus, the Memorandum and Articles of Association and, in relation to a particular Sub-Fund, the related Offering Supplement.

Subscriptions are valid only when based on the most recent Prospectus and the latest annual report (if any), as well as the latest half-yearly report (if any) when this has been published after the latest annual report. No person is authorised to give any information about the Company or a Sub-Fund if the same is not contained in this Prospectus or in the documents mentioned in this Prospectus and which the public can consult.

Subscription Applications for the purchase of Investor Shares are to be addressed to the Company and sent in writing to the Administrator (including facsimile or electronic mail instructions, subject that such requests are followed by the original signed instructions). Other Shareholder requests may be sent in writing, through electronic communications or by telephonically contacting the Company and/or the Administrator. The Administrator and the Company may record telephone conversations for security purposes.

The issue and subscription of Investor Shares shall be carried out on the applicable Subscription Day. However, with regard to Subscription Applications accepted during the Initial Offering Period, the issue of Investor Shares shall be carried out on the first Business Day after the Closing Date.

In the event that not all supporting documentation or information stated above has been received by the stipulated deadlines, the Company may (but shall not be obliged to), process the relevant Subscription Application. In such case, no redemptions will be allowed until such pending documents or information is received by the Company.

No application will be capable of withdrawal after acceptance by the Administrator, unless such withdrawal is approved by the Directors acting in their absolute discretion. In such circumstances, the Company may charge the Subscriber for any expense incurred by the company and for any loss to the relevant Sub-Fund arising out of such withdrawal.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant

Settlement Date (as specified in the relevant Offering Supplement for the Sub-Fund) or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled by not later than the time and date set out in the Offering Supplement and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

Subscription monies in respect of each Sub-Fund are payable in Base Currency of the relevant Class in the manner set out on the Subscription Application. However, the Company may accept payment in such other currencies as the Directors may agree, but such payments will be converted into the relevant Base Currency at the exchange rate available to the Administrator on the date of receipt of the subscription monies and only the net proceeds (after deducting the conversion expenses) will be applied towards payment of the subscription monies. This may result in a delay in processing the application.

Each Sub-Fund calculates its NAV per Share and the related Subscription and Redemption Price as at each Valuation Point for the relevant Dealing Day. The Subscription Price will be available from the Administrator and may be published in one or more financial newspapers in such countries where the Sub-Fund may be distributed to the public.

Orders to buy, exchange or transfer Investor Shares that are received and accepted by the Company before the deadline(s) set out in the Offering Supplement relating to a Class of Investor Shares will be processed at the NAV per Share. Orders received after such deadline will be processed on the following Subscription Day.

The Directors may extend or limit the cut off time for accepting orders and will notify Shareholders if and when a new time takes effect either by sending a notice or by advertising in the relevant newspapers.

A copy of the Subscription Application should be retained by the Subscriber for the Subscriber's personal reference and records.

Contract notes containing full details of the investment will be issued within four (4) Business Days of the relevant Subscription Day and will be mailed to the correspondence address held at the Company's registered office and, in the case of joint holders, such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s.

It is the responsibility of the Shareholder (and its agent where applicable) to check that the information contained on the contract note is correct and to notify the Company within five (5) Business Days of receipt of any discrepancy. Contract notes are sent at the Shareholder's own risk.

Title to the Shares will be evidenced by entries on the register of Shareholders on the Subscription Day. All Shares will be registered and an entry in the Register of Shareholders will be conclusive evidence of ownership. No share certificates will be issued. The un-certificated form allows the Company to effect redemption instructions without delay.

Any change to a Shareholder's personal details must be immediately notified in writing to the Company and received at the Administrator's registered office. The Company reserves the right to request indemnity or verification before accepting such notification.

Eligible Investors

The Administrator shall not be bound to register more than four (4) persons as joint holders of any Shares.

Each investor must represent and warrant to the Company that, amongst other things, he is able to acquire Investor Shares without violating applicable laws. The Company will not knowingly offer or sell Investor Shares to any investor to whom such offer or sale would be unlawful.

Subscribers' Undertakings and Warranties

Subscribers should take notice that by completing and executing the Subscription Application the Subscriber is entering into a number of undertakings and giving a number of warranties as specifically set out in the Subscription Application and in the Prospectus.

Subscriptions in Specie

The Company shall, at its option, be entitled to receive assets from a prospective Shareholder for the issue

of Investor Shares in the Company in accordance with the provisions of the Memorandum and Articles and in accordance with applicable law.

The Company shall appoint an independent valuer acceptable to the MFSA to draw up a valuer's report. Such report shall include:

- (1) a description of each of the assets comprising the consideration;
- (2) the value of each asset and a description of the method of valuation used;
- (3) a confirmation that the value of the consideration is at least equal to the net asset value of the shares to be issued in return for such consideration;

The Company shall only issue Investor Shares in the relevant Sub-Fund once the assets referred to in the valuer's report have been transferred in favour of the Company to the satisfaction of the Depository.

All valuer reports shall be held in Malta at the registered office of the Company.

The costs of any valuation of assets submitted as subscription *in specie* are to be borne by the relevant Subscriber.

The Company may charge an applicant for Investor Shares a Dilution Levy in addition to the Subscription Price if considered appropriate by the Directors, in order to ensure fairness between existing and new investors.

Nominee Services

A distributor, sub-distributor, a local paying agent or a clearing system appointed by the Company in relation to the subscription of Investor Shares in jurisdictions other than Malta may provide a nominee service for investors subscribing for Investor Shares through them. Such investors may, at their discretion, make use of such service pursuant to which the nominee will hold Investor Shares in its name for and on behalf of the investors. The beneficial owners of such Investor Shares may give such nominee voting instructions with respect to general meetings at which the holders of such Investor Shares are entitled to vote.

Investor Shares may be issued to and registered in the name of a nominee nominated by or on behalf of an investor, by a distributor, a sub-distributor or a third party nominee service provider or the local paying agent, as the case may be, and that is recognised and acceptable by the Company.

Investors may incur fees normally payable in respect of the maintenance and operation of accounts held with such nominee.

Exchange of Investor Shares

A holder of Investor Shares may exchange all or part of such holding (the "**Original Shares**") into Investor Shares in another Sub-Fund or in a different Class of Investor Shares of the same Sub-Fund (the "**New Shares**").

An irrevocable request from a Shareholder to exchange Investor Shares shall be construed as being a request for the repurchase of the stated number of Original Shares (save that the repurchase monies shall not be released to the investor) and a simultaneous request for the proceeds from such repurchase to be applied in the purchase of New Shares as may be indicated. The exchange of Investor Shares shall take place on the same Dealing Day, or as otherwise agreed with the investor, at the relevant Subscription Prices.

Irrevocable instructions addressed to the Company and received at the Administrator's registered office in respect of the above-mentioned funds before the cut off time for receipt of conversion instructions, if accepted by the Company, will be dealt at the Net Asset Value per Share on the applicable Dealing Day. Requests received after this time will, unless the Company otherwise agrees, be held over until the following Dealing Day in relation to the New Shares/ Original Shares. Irrevocable conversion instructions addressed to the Company and received at the Administrator's registered office on a Business Day which is not a Dealing Day in relation to the New Shares / Original Shares, if accepted by the Company, will be carried over to the following Dealing Day and dealt at the Net Asset Value per Share on the applicable Dealing Day.

The number of New Shares to be issued on exchange shall be determined by the Administrator in accordance

(or as nearly as may be in accordance) with the following formula:

$$NS = \frac{[(A \times B) - C] \times D}{E}$$

where:

NS	=	the number of New Investor Shares which will be issued;
A	=	the number of Original Investor Shares to be exchanged;
B	=	the Redemption Price of such Original Investor Shares on the relevant Redemption Day;
C	=	any transaction costs or other deductions which may be applicable;
D	=	if applicable, the rate of exchange determined by the Administrator for converting the currency of designation of the Original Investor Shares into the currency of designation of the New Investor Shares; and
E	=	the Subscription Price of the New Investor Shares on the relevant Subscription Day (adjusted for any fees or any commissions payable).

The Company will dispatch contract notes within four (4) Business Days of the relevant Dealing Day when the order to convert is fully effected. Contract notes will be mailed to the correspondence address held at the Company's registered office and, in the case of joint holders, such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s.

Transfer of Investor Shares

General

In order to acquire or hold Investor Shares in the Company, investors must satisfy the conditions set out in this Prospectus.

A Shareholder desiring to transfer his Investor Shares must make available to the Registrar the certificate(s), if issued, or other evidence representing the Investor Shares that such Shareholder desires to transfer, together with a written instrument of transfer executed by or on behalf of the proposed transferor setting forth:

- (1) the names and addresses of the proposed transferor and transferee;
- (2) the number of Investor Shares and the Contract ID's to be transferred;
- (3) the number on the contract note(s) relating to such Investor Shares; and
- (4) such other information as the Company may require, including information necessary to satisfy the Company that the proposed transfer complies with applicable laws and appropriate identification documentation is provided as required by the Company and/ or the Administrator to comply with applicable anti-money laundering regimes.

The proposed transferee must, in the above-mentioned instrument of transfer, agree to take such Investor Shares subject to the same conditions and restrictions pursuant to which the Investor Shares were held by the transferor.

The Company's Memorandum and Articles provide that, except in relation to a class or classes of Investor Shares that are listed on a Regulated Market, the Directors may, in their absolute discretion, decline to give effect to the proposed transfer of any Investor Share and may withhold approval for any reason. Where a class or classes of Investor Shares are listed on a Regulated Market such Investor Shares will be freely transferable to other Eligible Investors. Please refer to the relevant Offering Supplement for details on eligibility and listing, if any.

Furthermore, the Directors or the Administrator may decline to register any transfer of Investor Shares:

- (1) unless the instrument of transfer is deposited at the office of the Administrator accompanied by the certificate of the Investor Shares to which it relates (if any) and such other evidence as the Administrator on behalf of the Company may reasonably require to prove the right of the transferor to make the transfer;

- (2) if the Company has any pledges registered over the Investor Shares being transferred;
- (3) if the registration of transfers has been suspended by the Directors or the Administrator in accordance with the Memorandum and Articles.

If the Directors or the Administrator on behalf of the Company declines to register a transfer, it shall send notice to the transferee of such refusal within two (2) months. If after two (2) months from receipt by the Company of an acceptable instrument of transfer the Administrator on behalf of the Company does not deny permission for the transfer, the Company shall be deemed to have approved the transfer, and shall be obliged to register the transfer forthwith.

Minimum Holding Requirements for Registration of Transfers

Should it appear to the Administrator on behalf of the Company that the effect of a transfer will result, after the transfer, in the transferor or the transferee holding less than the Minimum Holding required in this Prospectus, or in the relevant Offering Supplement, the Administrator shall immediately inform the transferee that the request for registration of a transfer has been suspended until the request is amended to result in observance of the Minimum Holding of Investor Shares, after the transfer of Investor Shares, by both the transferor and transferee.

Redemption of Shares

Procedure

Subject to the restrictions appearing in this Prospectus, the Memorandum and Articles, or, in relation to a particular Sub-Fund, the related Offering Supplement, a Shareholder may cause any or all of his Investor Shares to be redeemed by the Company on a Redemption Day at the Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice with such deadlines as may be set out in the related Offering Supplement.

The Redemption Notice must be delivered to the Company at the office of the Administrator. Redemption proceeds in the Base Currency of the redeemed Investor Shares will be transferred to a bank account previously specified by the shareholders. The Company shall not issue cheques for redemption proceeds. Redemptions will be suspended during any period when the calculation of a Sub-Fund's NAV per Share is suspended. If an order to sell Investor Shares would bring an account below the required minimum balance, a Sub-Fund may sell all Investor Shares in the account and deliver the proceeds to the Shareholder. The Directors at times may permit Investor Shares to be redeemed through an in specie transfer of assets done on an equitable basis and in a way consistent with the interest of all shareholders of the relevant Sub-Fund. The redeeming Shareholders bear the costs associated with redemption-in-kind, including cost of a valuation report, unless the Company considers that the in specie transfer is in its interest.

Redemption proceeds will be rounded down to the nearest unit or currency unit and the related Sub-Fund will retain the benefit of any such rounding. Payment will be made to the registered holder/s by bank transfer to an account held in the name of the registered holder/s as duly instructed in the redemption instructions. The Company shall not be responsible for any delay in transmission. In the case of Investor Shares held jointly by two or more persons, the Company shall cause the redemption payment to be made by bank transfer, this will be made to the account held in the name of any one or more of the joint holders as duly instructed in the redemption instructions. Payment of the redemption proceeds as specified above shall be deemed as having been effected to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s. Any applicable bank charges incurred will be borne in an equitable manner in accordance with market practice.

If a Shareholder's remaining total investment is less than the Minimum Holding, the Company may at its discretion redeem the entire holding.

Contract notes containing full details of the redemption will be issued within four (4) Business Days of the relevant Redemption Day and will be mailed to the correspondence address held at the Company's registered office and, in the case of joint holders, such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s. It is the responsibility of the Shareholder (and its agent where applicable) to check that the information contained on the contract note is correct and to notify the Company within five (5) Business Days of receipt of any discrepancy. Contract notes are sent at the Shareholder's own risk.

Redemption Price

The Redemption Price as at the Valuation Point for the relevant Redemption Day will be calculated up to four (4) decimal places.

The Redemption Price is the NAV per Share calculated at the Valuation Point on the relevant Valuation Day. The NAV per Share will reflect all accrued income and expenses.

Compulsory Redemption

Each investor must represent and warrant to the Company that amongst other things he/she is able to buy Investor Shares without violating applicable laws. The Company reserves the right to seek evidence of identity to comply with any applicable Prevention of Money Laundering requirements. In the case of failure to provide satisfactory information, the Company may take such action, as it thinks fit.

The Company reserves the right to require a Shareholder to redeem its total shareholding, within one (1) Business Day of a notice of intent to do so, at the prevailing Redemption Price on the day that the requested

redemption takes place, in the event that it is established that Investor Shares have been acquired by, or on behalf of, a U.S. Person or in the event that the holding of Investor Shares by the Shareholder concerned may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the Company or the Shareholders as a whole, or, if as at any Valuation Point, the total value of the Investor Shares held by the Shareholder is less than the Minimum Holding for the Company or a Sub-Fund or expose the Company to litigation, arbitration, administrative proceedings or any similar action or proceeding. Such compulsory redemptions will take place at the prevailing Redemption Price on the day that such redemption takes place.

Total Redemption

If at any time after the first anniversary date of the incorporation of the Company the Net Asset Value of all the Investor Shares in the Company, calculated in accordance with the Prospectus, shall within a consecutive six month period be less than ten million Pounds Sterling (GBP 10,000,000) the Company may in accordance with the Articles and by providing not less than one (1) calendar month's prior notice to all affected holders of Investor Shares, repurchase all the Investor Shares of the Company not previously repurchased. The same power shall apply in relation to a Sub-Fund of the Company in the event that the aggregate Net Asset Value of all the Investor Shares constituting a Sub-Fund is less than five million Pounds Sterling (GBP 5,000,000) or its currency equivalent.

Suspension of Redemptions

Should it appear to the Administrator that the effect of a Redemption Notice will result after the Redemption, in the Shareholder holding in aggregate less than the Minimum Holding, the Administrator shall immediately inform the applicant that the request for redemption has been suspended until the Notice is amended either to result in observance of the Minimum Holding of Investor Shares, after redemption, or to request the redemption of all of the outstanding Investor Shares in the name of the Shareholder.

Temporary suspension of Net Asset Value calculations and of issues, exchanges and redemptions of Investor Shares

The Directors may declare a temporary suspension of any one or more of:

- (1) the determination as at any Valuation Point of the Net Asset Value of a Sub-Fund (and hence the Net Asset Value per Investor Share);
- (2) the issue of Investor Shares in a Sub-Fund;
- (3) the exchange of Investor Shares in a Sub-Fund; and
- (4) the redemption of Investor Shares in a Sub-Fund, during any period during which circumstances exist in which the Directors consider that to permit determination of Net Asset Value and/or to permit issues, redemptions and/or exchanges of Shares, as the case may be, would not be in the best interests of the particular Sub-Fund, as the case may be, and its Shareholders as a whole.

The Company at any time may, but shall not be obliged to, temporarily suspend, as at any Valuation Point, the determination of the Net Asset Value of any class of Investor Shares and the sale and redemption of such shares, in the following instances:

- (1) during any period (other than holiday or customary weekend closings) when any market is closed which is the main market for a significant part of the investments comprised in a Sub-Fund to which such class of Investor Shares relates, or in which trading thereon is restricted or suspended; or
- (2) during any period when as a result of political, economic, military or monetary events or any other cause or circumstance whatsoever outside the control, responsibility and power of the Company, disposal by the Company of investments which constitute a substantial portion of the assets of a Sub-Fund to which such class of Investor Shares relates is not practically feasible without being seriously detrimental to the interests of shareholders; or
- (3) during any period when for any reason, in the opinion of the Directors, a fair price of investments comprised in a Sub-Fund to which such class of Investor Shares relates cannot be reasonably, promptly or accurately ascertained by the Company; or

- (4) during any period when there is a breakdown of the means of communication normally used for the valuation of Investments comprised in the Sub-Fund or if for any reason the value of any asset of the Company may not be determined as rapidly and as accurately as required;
- (5) during any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments comprised in the Sub-Fund to which such class of shares relates cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or
- (6) during any period when the proceeds of sale or redemption of such shares in the Company cannot be transmitted to or from the Company's account; or
- (7) as a result of exchange restriction or other restrictions affecting the transfer of funds, transactions on behalf of the Company are rendered impracticable, or purchases, sales, deposits and withdrawals of the Company's assets cannot be effected at the normal rates of exchange; or
- (8) during any period when investments of the Sub-Fund cannot be liquidated in a timely fashion to meet redemption requirements without having a significant adverse effect of the Sub-Fund (but only to the extent that the Sub-Fund has not received funds in respect of the liquidation of investments); or
- (9) an Extraordinary Resolution to wind up the Company has been passed.

No Investor Shares will be issued during periods when issues of Investor Shares are suspended, no Investor Shares will be exchanged during periods when exchanges are suspended, and no Investor Shares will be redeemed during periods when redemptions are suspended. In such a case, a Shareholder may, subject to the below, withdraw its Share application or redemption or exchange request, as appropriate, provided that a withdrawal notice is actually received by the Administrator before the suspension is terminated.

Unless withdrawn, Share applications and redemption and exchange requests, as appropriate, will be acted upon on the first Dealing Day after the suspension is lifted at the relevant Subscription Price or Redemption Price (as the case may be) prevailing on that Dealing Day (as the case may be). An application for Investor Shares may not be withdrawn if issues of Investor Shares are suspended on a date following the Dealing Day upon which the application for such Investor Shares is deemed to be effective. The Net Asset Value will not be calculated during periods when the determination of the Net Asset Value of a Sub-Fund is suspended.

Notice of the suspension and its termination will be given to all Shareholders and Subscribers. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

Any fees due to any service providers that are based on the Net Asset Value of a Sub-Fund shall accrue on the basis of the latest available Net Asset Value of the related Sub-Fund.

Holdback of Redemption Proceeds

A Sub-Fund may have potential liabilities or other financial obligations the existence of which may only be confirmed after a Redemption Notice has been received and processed. A Sub-Fund may also have current liabilities or other financial obligations arising from past events the cost of which, at the time of paying Redemption Proceeds, cannot be fully determined. In order to prudently provide for such potential liabilities the Company, through the Administrator, may decide to remit to a redeeming investor 98% of the Redemption Proceeds within such time limits as provided in this Prospectus, and will withhold the remaining 2% of such Redemption Proceeds in a reserve for contingent liabilities ("the Holdback Reserve"). Funds placed in the Holdback Reserve will not remain invested in the Company and will be kept separate from the assets of the Sub-Fund. The Holdback Reserve will not be taken into account for the calculation of the NAV of the respective Sub-Fund and will be deposited in a bank account of the Company in relation to the Sub-Fund until any contingent obligations or liabilities are ascertained. To the extent commercially practicable the Administrator will provide relevant information on the Holdback Reserve upon request from an affected Shareholder. As soon as the extent of the obligations or liabilities is determined to the satisfaction of the Company any funds remaining in the Holdback Reserve will be remitted to the Shareholder (as part of the Redemption Proceeds due) to the account to which other Redemption Proceeds were paid or wherever else the Shareholder instructs, subject to the Administrator's AML obligations.

Frequent Trading

Investment in the Sub-Funds is intended for long term purposes only. The Directors will take reasonable

steps to seek to prevent excessive and/or short term trading or similar abusive practices. Excessive and/or short term trading into and out of a Sub-Fund can disrupt or impair portfolio investment strategies, are likely to unnecessarily increase expenses and might negatively impact investment returns for all Shareholders, including long term Shareholders who do not generate these expenses. The Directors reserve the right to reject any redemption, purchase or conversion request delivered by any investor or group of investors if the Directors believe that such redemption, purchase or conversion request disrupts or impairs the trading activity in the portfolio(s) and accounts(s) of a Sub-Fund.

Investors need to be aware that there are practical restraints in both determining the policy which is appropriate in the interest of long term investors and in applying and enforcing such policy.

The right to convert or exchange Investor Shares is not intended to facilitate excessive and/ or short term trading. The Directors reserve the right to reject any conversion order for any reason without prior notice.

Redemption in Specie

Except as provided below, the Company will generally redeem Investor Shares of any Sub-Fund in cash.

Where a Shareholder submits a redemption request pursuant to which he indicates that he wishes to redeem a number of Investor Shares in any of the Sub-Funds as would on the relevant Redemption Day be equivalent to 5% or more of the Net Asset Value of that Sub-Fund, the Company may, in its discretion but with the prior approval of the Depositary and the Shareholder, satisfy such redemption instruction by redeeming such Investor Shares in specie and accordingly by transferring to that Shareholder that proportion of the assets of the Sub-Fund which is at least equal to the Net Asset Value of the Investor Shares being redeemed. The nature of the assets and the type of the assets to be transferred to that Shareholder shall be determined by the Company on such basis as the Company, with the consent of the Depositary, shall deem equitable and not prejudicial to the interests of both the remaining and outgoing Shareholders.

For such purposes, the Company shall draw up a valuation report which shall include:

- (1) a description of each of the assets comprising the consideration;
- (2) the value of each asset and a description of the method of valuation used; and
- (3) a confirmation that the value of the consideration is at least equal to the Net Asset Value of the Investor Shares being redeemed in return for such consideration.

The value of the assets shall be determined on the same basis used in calculating the Net Asset Value. Such valuation report shall be held at the registered office of the Company and shall be made available to the MFSA for inspection during compliance visits.

Taxation

Malta

General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation applicable to the purchase, repurchase and disposal of Investor Shares in the Company and to any distribution made by the Company.

The following is a summary of the anticipated tax treatment in Malta applicable to the Company and to its Members. This information, which does not constitute legal or tax advice, refers only to Members who do not deal in securities in the course of their normal trading activity. The information below is based on tax law and practice applicable at the date of this Prospectus. Investors are reminded that tax law and practice and the levels of tax relating to the Company and the Investors may change from time to time.

The Company

In terms of current legislation, collective investment schemes are classified as either “prescribed” or “non-prescribed funds”. In general, a prescribed fund is defined as a fund resident in Malta, which has declared that the value of its assets situated in Malta amounts to at least eighty five per cent (85%) of the value of the total assets of the fund. Maltese resident funds which do not have such an exposure to Maltese assets and all non-resident funds are treated as being non-prescribed. On the basis of this definition, and unless otherwise stated in the Offering Supplement, the Company and its Sub-Funds are classified as **Non-Prescribed Funds** for tax purposes.

In view of the above, the Company is exempt from (or not subject to) Maltese income tax on any income and capital gains.

Capital gains, dividends, interest and any other income from foreign securities held by the Company may be subject to tax imposed by the country of origin concerned and such taxes will not be recoverable by the Company or by investors.

Value Added Tax

Fees chargeable to the Company may be subject to VAT in accordance with applicable law. If any VAT is charged, this will not be recoverable by the Company.

The Shareholders

Capital gains realised by investors who are non-residents of Malta are not subject to tax in Malta.

Capital gains realised by Maltese resident investors on a repurchase of Investor Shares by the Company, the transfer of Investor Shares to third parties or an exchange of Investor Shares in a Sub-Fund classified as a **Non-Prescribed Fund** are treated as follows:

Resident investors may opt to be subject to a 15% final withholding tax which shall be deducted at source by the Company on any capital gains realised by investors. Alternatively, investors may opt to receive any capital gains without deduction of tax in which case such investors would be bound to declare such capital gains in their personal income tax return and would be subject to tax at the normal rates of tax which are applicable to them.

In case of transfers to third parties, the transferor is obliged to declare any capital gains in the income tax return and pay tax at the normal rates. Any capital gains on an eventual redemption will be calculated without reference to any intermediate transfer.

Capital gains arising from the exchange of Investor Shares in a Sub-Fund for Investor Shares in any other Sub-Fund within the same Company are only taxable when the Investor Shares are eventually disposed of. Any gains or losses arising from the exchange of Investor Shares will be taken into account in the computation of any taxable capital gains.

In view of the fact that the Company will only receive foreign source income from its investments, such foreign income should be allocated to the Company's Untaxed Account for Maltese tax purposes. Distributions from the Untaxed Account of the Company to Maltese resident investors (other than companies), or to non-resident investors (including non-resident companies) who are owned and controlled by, directly or indirectly, or who act on behalf of, persons who are ordinarily resident and domiciled in Malta, are subject to a 15% withholding tax. Investors are not required to declare such dividends in their income tax returns. However, they are entitled, depending on their personal circumstances, to declare such dividends in their income tax return and claim a credit of the 15% tax withheld. The distribution of profits to other persons is not subject to withholding tax.

Duty on Documents and Transfers

Redemptions of Investor Shares by the Company and transfers of Investor Shares to third parties are exempt from duty on documents and transfers in Malta, as the Company is a licensed collective investment scheme.

FATCA Implementation in Malta

On 16 December, 2013, the governments of Malta and the United States signed an agreement to "Improve International Tax Compliance and to Implement FATCA" (the "**Inter-Governmental Agreement**"). This agreement will significantly increase the amount of tax information automatically exchanged between Malta and the United States. It provides for the automatic reporting and exchange of information in relation to accounts held in Maltese "financial institutions" by U.S. persons and the reciprocal exchange of information regarding U.S. financial accounts held by Maltese residents. It is likely that a Sub-Fund will be subject to these rules.

The Inter-Governmental Agreement provides that Maltese financial institutions will report to the Malta Finance Ministry or its delegates in respect of U.S. account-holders and, in exchange, U.S. financial institutions will be required to report to the U.S. Secretary of the Treasury or his delegates in respect of any Malta-resident account-holders. The two tax authorities will then automatically exchange this information on an annual basis.

A Sub-Fund (and / or the Administrator) shall be entitled to require investors to provide any information regarding their tax status, identity or residency in order to satisfy any reporting requirements which a Sub-Fund may have as a result of the Inter-Governmental Agreement or any legislation issued in connection with the agreement and investors will be deemed, by their subscription for or holding of Shares to have authorised the automatic disclosure of such information by the issuer or any other person to the relevant tax authorities.

Other countries are in the process of adopting similar tax legislation concerning the reporting of information. The Sub-Funds also intend to comply with such other similar tax legislation that may apply to the Sub-Funds, although the exact parameters of such requirements are not yet fully known. As a result, the Sub-Funds may need to seek information about the tax status of investors under such other country's laws and each investor for disclosure to the relevant governmental authority.

Prospective investors should consult their own tax advisor (i) regarding the requirements under FATCA with respect to their own situation, and (ii) with regard to US federal, state, local and non-US tax reporting and certification requirements associated with an investment in a Sub-Fund.

Common Reporting Standards

The Organisation for Economic Co-operation and Development (OECD) has developed a new global standard for the automatic exchange of financial information between tax authorities (the "**Common Reporting Standard**"), which is similar to FATCA. Malta is a signatory jurisdiction to the Common Reporting Standard.

The European Union directive regarding the taxation of interest income (the "EU Savings Directive") has been repealed and was effectively replaced by EU Council Directive 2014/107/EU. EU Council Directive 2014/107/EU extends the scope of mandatory exchange of information between EU member states to financial account of information. This extension effectively incorporated the Common Reporting Standard in the EU Directives concerning automatic exchange of information.

The EU Council Directive 2014/107/EU and the Common Reporting Standard have been implemented in Maltese legislation through the publication of the Co-Operation with Other Jurisdictions on Tax Matters (Amendment) Regulations with effect from 1 January 2016 and the Inland Revenue has published guidelines

in this respect.

The said requirements, may impose additional burdens and costs on the Company (or each Sub-Fund) and/or its Investors.

The Company (or each Sub-Fund) may require certain additional financial information from Investors and financial intermediaries acting on behalf of Investors to comply with its diligence and reporting obligations. If the Company (or each Sub-Fund) is unable to obtain the necessary information from Investors, it may take any steps necessary to avoid resulting sanctions, which may include (but are not limited to) compulsorily redeeming the relevant Investor.

Financial Transaction Taxes

A number of jurisdictions have implemented, or are considering implementing, certain taxes on the sale, purchase or transfer of financial instruments (including derivatives), such taxes commonly known as the "Financial Transaction Tax" ("**FTT**"). Prospective investors should consult their own tax advisers in relation to the consequences of any FTT associated with subscribing, purchasing, holding and disposing of shares in Sub-Funds.

Other Taxes

Prospective shareholders should consult their own counsel regarding tax laws and regulations of any other jurisdiction which may be applicable to them.

Potential investors should consult their own professional advisor on the possible tax implications of buying, holding, transferring or selling any of the Shares under the laws of their countries of citizenship, residence and domicile.

No warranty is given or implied regarding the applicability or interpretation of the tax laws in any jurisdiction.

TAX CONSEQUENCES MAY VARY DEPENDING UPON THE PARTICULAR STATUS OF AN INVESTOR. THE TAX AND OTHER MATTERS DESCRIBED IN THIS PROSPECTUS DO NOT CONSTITUTE, AND SHOULD NOT BE CONSIDERED AS, LEGAL OR TAX ADVICE TO INVESTORS.

Indemnities

The Company has agreed that with respect to any actions in which any of its Officers, Directors, Investment Committee members, employees and agents is a party, the Company shall indemnify and hold harmless such person against any loss, claim, damage, charge, liability or expense (including reasonable attorneys' and accountants' fees), judgements and amounts paid in settlement, provided such actions did not involve fraud, negligence or wilful default. Expenses may be paid by the Company in advance of the final disposition of such action if the indemnified person agrees to reimburse the Company in the event indemnification is not permitted.

The Company may purchase and maintain insurance in relation to the Directors, Officers and Investment Committee Members against any liabilities asserted against them.

In addition, the Company has granted indemnities to the Investment Manager, the Risk Manager, the Depositary and the Administrator and each of their directors, officers, employees and agents in respect of actions brought against them in their respective capacities. For an overview of the particular indemnity provided (and exclusions to same) to the above service providers please refer to the sections entitled "**The Investment Manager**", "**The Risk Manager**", "**The Depositary**" and "**The Administrator**" respectively.

Net Asset Value Calculation

Allocation of Assets and Liabilities

The Directors and/ or their appointed delegates shall allocate assets and liabilities amongst such Sub-Funds in the following manner:

- (1) the proceeds from the issue of one or more classes of Investor Shares in a Sub-Fund, shall be applied in the books and records of that Sub-Fund, and the assets less the liabilities plus income less expenditure attributable thereto shall be applied to such Sub-Fund subject to the provisions of the Memorandum and Articles;
- (2) where any asset is derived from another asset (whether cash or otherwise), the derived asset shall be applied to the same Sub-Fund as the assets from which it was derived and on each revaluation of an asset the increase or diminution in value shall be applied to the relevant Sub-Fund;
- (3) in the case of any asset which the Directors do not consider as attributable to a particular Sub-Fund, the Directors shall have discretion, subject to the approval of the Depositary, to determine the basis upon which any such asset shall be allocated between Sub-Funds and the Directors shall have the power at any time, subject to the approval of the Depositary, to vary such basis provided that the approval of the Depositary shall not be required in any such case where the asset is allocated between all Sub-Funds pro rata to their Net Asset Values at the time when the allocation is made;
- (4) the Directors shall have the discretion, subject to the approval of the Depositary, to determine the basis upon which any liability (which, without limitation, may include all operating expenses of the Company such as stamp duties, taxes, brokerage or other expenses of acquiring and disposing of investments, the fees and expenses of the auditors and legal advisers, the costs of printing and distributing reports, accounts and any prospectus, publishing prices and any relevant registration fees etc.) shall be allocated between Sub-Funds (including conditions as to the subsequent re-allocation thereof if circumstances so permit) and shall have the power at any time and from time to time to vary such basis, provided that the approval of the Depositary shall not be required in any such case where a liability is allocated between the Sub-Funds pro rata to their Net Asset Values; and
- (5) subject to the approval of the Depositary, the Directors may transfer any assets to and from Sub-Funds if, as a result of a creditor proceeding against certain of the assets of the Company or otherwise, a liability would be borne in a different manner from that in which it would have been borne under paragraph (4) above or in any similar circumstances.

Calculation of NAV

The Net Asset Value of each Sub-Fund shall be determined by calculating the net difference between the fair market value of its assets and the fair market value of its liabilities calculated on the basis of the provisions of the Memorandum and Articles as outlined in Appendix 3.

At any Valuation Point for a Dealing Day the Administrator and / or its appointed delegates shall calculate the Net Asset Value as follows:

The value of the assets of a Sub-Fund will be based on valuations obtained by the Directors, the Administrator and / or their appointed delegates in accordance with the provisions of the Articles of Association of the Company. The Directors, the Administrator and/ or their appointed delegates may rely on independent sources, including recognised pricing services, when practicable and in such cases the valuer would need to be: (a) an independent person from the Company, its officials or any service provider of the Company; (b) of good standing with recognised and relevant qualifications and an authorised member of the recognised professional body in the jurisdiction of the assets; and (c) shall be appointed by the Directors in consultation with and subject to the approval of the Auditors. When such valuation sources are not available, the Directors, the Administrator and/ or their appointed delegates may rely on valuation agents, appointed by the Company which may include affiliates of the Investment Manager. In such later case, the Directors and / or their appointed delegates will ensure that the valuation procedure of any affiliates of the Investment Manager is being independently reviewed from time to time.

All liabilities of a Sub-Fund shall be valued in accordance with the provisions of the Memorandum and Articles.

Subject to what is stated under the sub-title 'NAV per Share' hereunder, if the value of a Sub-Fund's assets is adjusted after any Valuation Point, the Administrator and the Directors will not be required to revise or recalculate the NAV on the basis of which subscriptions, redemptions or exchange of Shares of that Sub-Fund may have been previously accepted.

For the purpose of the calculation of the NAV per Share, the value of assets or liabilities denominated in a currency other than the Base Currency of that Investor Share shall be determined by taking into account the rate of exchange prevailing at the time of the determination of the NAV.

Additional conditions relating to the calculation of the NAV of any particular Sub-Fund (including Classes thereof) will, if applicable, be found in the relative Offering Supplement.

NAV per Share

Where a Sub-Fund is constituted by one class of Investor Shares, its NAV per Share shall be determined by calculating the NAV divided by the number of Investor Shares outstanding. Where a Sub-Fund is constituted by more than one class of Investor Shares, the NAV per Share (of each class of Shares in that Sub-Fund) shall be determined by calculating the NAV attributable to that Class of Investor Shares divided by the number of Investor Shares outstanding in that Class.

The NAV per Share shall be calculated rounding down to four (4) decimal places, and shall be expressed in the Base Currency of the class of the Investor Share concerned.

The NAV per Share will be published on every Dealing Day and will be available from the Administrator. It may also be published on other sources from time to time, such as the Financial Times and on Bloomberg and will be available from the Company or Administrator as soon as possible following the relevant Dealing Day.

Appendix 3: Excerpt from the Articles

11. Determination of Net Asset Value

11.1 The Company shall, at each Valuation Point, determine the Net Asset Value and the Net Asset Value per Share of each relevant class of Investor Shares, which shall be the value of the assets less the liabilities of the Company attributable to such class divided by the number of Shares in issue or deemed to be in issue in such class. The Net Asset Value and the Net Asset Value per Share shall be expressed in the Base Currency (or in such other currency as the Directors shall determine) as a per Share figure for each class of Shares in issue rounding down to such decimal figure of the relevant Base Currency as may be outlined in the Prospectus or the related Supplement. The frequency of Valuation Points shall be determined in accordance with the Prospectus which frequency shall, unless otherwise permitted by the Licence Conditions, not in any case be less than twice every month.

11.2 Subject to the provisions of Article 0, the value of the assets comprised in a Sub-Fund shall be ascertained on the following basis:

Quoted Investments

(a) the value of any Investment quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market shall be calculated in the following manner:

(i) by reference to the price appearing to the Directors to be the latest available dealing price or (if bid and offered quotations are made) the latest available middle quotation on such Approved Regulated Market; and

(ii) if an Investment is quoted, listed or normally dealt in, on or under the rules of more than one Approved Regulated Market, the Directors may adopt the price or, as the case may be, the middle quotation on the Approved Regulated Market which, in their opinion, provides the principal market for such Investment; and

(iii) in the case of any Investment which is quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market but in respect of which, for any reason:

(A) prices on that Approved Regulated Market may not be available at any relevant time; or

(B) the value thereof based on the said prices or quotations as described in paragraphs (a)(i) and (ii) above does not establish, in the opinion of the Directors, the fair value of any Investment,

then the value thereof shall be determined by such independent valuer as may be appointed by the Directors for such purpose or generally in relation to some or all the Investments of the Company and for such time as may be determined by the Directors. Details of any selection criteria for the appointment of an independent valuer as aforesaid may be set out in the Prospectus or relevant Supplement.

Unquoted Investments
